EXECUTIVE SUMMARY

The Public Service recommends that the City-owned property located at 604 St. Mary's Road and identified as "Subject City Property" on Misc. Plan No. 12558/12, attached as Schedule A, be declared surplus to the needs of the City. If declared surplus by Council, it is the intention of the Public Service to publicly market the Subject City Property.

RECOMMENDATIONS

1. That the City-owned property located at 604 St. Mary's Road, identified as "Subject City Property" on Misc. Plan No. 12558/12, attached hereto as Schedule A, be declared surplus to the needs of the City.

2. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

The Policy for the Sale, Acquisition, Rental, Leasing and Management of Properties, adopted by Council on July 19, 1979 requires Council approval to declare land surplus to the City's requirements.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no financial, regulatory, environmental, operational, human resources or other implications associated with this report.

The City's standard terms and conditions of sale will include provisions to protect the City's interests in the event that environmental contamination is discovered.

The Public Service intends to sell the Subject City Property on the open market and in accordance with standard City policies.

HISTORY/DISCUSSION

The City owns the Subject City Property located at 604 St. Mary's Road, which was constructed in 1959 and originally functioned as the St. Vital Municipal Office and Hall.

There have been various occupants of this building since its use as the St. Vital Municipal Office and Hall concluded. Occupants included the Winnipeg Fire Paramedic Service, the City of Winnipeg Retiree's Association, the St. Vital BIZ, McElhoes and Duffy Insurance, and Sunova Financial Services Inc. ("Sunova").

Most recently, a portion of the building was leased to Sunova for use as a commercial insurance office. Sunova terminated their lease agreement and vacated the Subject City Property on September 30, 2017. The Subject City Property has been vacant since this date.

The building has a unique floor plate which includes a south wing and a north wing, with a lobby and vestibule in the centre. It was determined that in order to have multiple tenants, a fire-rated demising wall is required to meet current code requirements. In addition, the building requires numerous building system replacements/upgrades. The Public Service determined that the cost to continue leasing the building was prohibitive.

Should the recommendations contained in this report be approved, a subdivision of the Subject City Property will be required to establish a saleable lot. The specifications and boundaries for this subdivision have proven to be complicated given the river frontage, adjacent Water & Waste pumping station and other City property, and rear laneway access. Extensive consultation with respective City Departments has been undertaken over the last number of months in order to establish saleable land boundaries for the Subject City Property.

The Subject City Property was circulated to all City Departments and no civic need was identified.

The Public Service has received sale inquiries regarding the Subject City Property and publicly marketing the land is expected to generate interest should Council declare the land surplus to the City's needs.

If the recommendations contained in this report are approved, the Subject City Property will be marketed publically by way of Request for Proposal ("RFP").

The Ward Councillor was consulted with the intentions of the Department and does not support the recommendation.

OURWINNIPEG POLICY ALIGNMENT

03-2 Vitality – Direction 1: Strive to Eliminate Derelict Buildings.

The recommendations of this report are in alignment with this section of the OurWinnipeg Policy. Although this is not currently considered a derelict building, the condition of the building could easily and quickly deteriorate given that it is currently vacant and that there is no civic use for the structure.

Areas of Stability – Mature Communities: Support a Mix of Uses Within Buildings Located on Commercial Streets.

The recommendations of this report are in alignment with this section of the OurWinnipeg Policy. The Subject City Property is currently suitable as a commercial office type use. Although currently vacant, a proposed sale is likely to spur occupancy and support a mix of uses within this mature neighbourhood.

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

Strategic Opportunity #4 – Land Use

Explore opportunities for the City of Winnipeg to take a more direct role in advancing mixed use development that may include developing City-owned lands, assembling land for resale, partnering on development, or using City funds to leverage private investment.

The recommendations of this report are in alignment with this section of the Winnipeg Climate Action Plan. A proposed sale of the Subject City Property is likely to result in a redevelopment of the Subject City Property as a whole, or investment into the existing building to make suitable for occupancy.
