EXECUTIVE SUMMARY

On December 12, 2017, Council approved the 2018 Capital Budget which provided funding to the Water and Waste Department for Miscellaneous Land Acquisitions. The funding can be used to acquire closed landfill sites or land within close proximity to landfill sites.

The private property located at 120 Softley Road, identified as “Subject Property” on Misc. Plan No. 15244, attached hereto as Schedule B, is vacant industrial land that is being sold. The Public Service recommends acquiring the Subject Property for $255,000.00 plus G.S.T. to ensure proper risk management of a privately held former City landfill site.

The Water and Waste Department was consulted and supports the proposed acquisition.

RECOMMENDATIONS

1. That, per the City Auditor’s report, attached as Schedule C, the requirement for the Independent Fairness Commissioner to conduct a compliance review of the proposed acquisition of 120 Softley Road be waived.

2. That, subject to concurrence of Recommendation 1, that the proposed Terms and Conditions (attached as Schedule A) for the acquisition of private property located at 120 Softley Road, identified as “Subject Property” on Misc. Plan No. 15244,for $255,000.00 plus G.S.T. be approved.

3. That, subject to concurrence of Recommendation 1, that the City enter into, execute and deliver a Purchase and Sale Agreement with the owner of 120 Softley Road, and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the “Ancillary Agreements”).

4. That, subject to concurrence of Recommendation 1, that authority be delegated to the Chief Administrative Officer to negotiate and approve the terms and conditions of the Purchase and Sale Agreement and Ancillary Agreements, in accordance with this report and such other terms and conditions deemed necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

5. That any rental revenue produced by a lease on the Subject Property be deposited into the Water and Waste Department's Landfill Rehabilitation Reserve.

6. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

The Policy for the Sale, Acquisition, Rental, Leasing and Management of Properties, adopted by Council on July 18, 1979, authorizes the Standing Policy Committee on Property and Development, Heritage and Downtown Development to approve the terms and conditions of acquisitions that form part of a Council approved land acquisition program.

On December 13, 2016, Council approved the 2017 Capital Budget which provided funding to the Water and Waste Department for Miscellaneous Land Acquisitions.

Council approval is required to waive Council Policy such as the requirement for the Independent Fairness Commissioner to conduct a compliance review.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no regulatory, environmental, operational, human resources or other implications associated with this report.

The Water and Waste Department has advised there is adequate funding for the acquisition in the Capital Budget. The City is a G.S.T. registrant and will self-assess, where applicable.

Should the Subject Property be leased to a third party (e.g. site storage), rental revenue is recommended to be redirected into the Water and Waste's Landfill Rehabilitation Reserve for closure and post-closure landfill needs for all active and closed landfills maintained under the responsibility of the City, including the purchase of land in close proximity to landfill sites.

HISTORY/DISCUSSION

The Subject Property forms part of the closed St. Boniface Landfill Site, which extends on either side of Lagimodiere Boulevard, north of Dugald Road. The closed landfill area is largely held by the City to effectively manage the environmental risk associated with landfill sites. The Subject Property is one of a few privately held properties within the boundaries of the St. Boniface Landfill Site.

The Water and Waste Department has a Capital Budget that can be used to acquire closed landfill sites or land within close proximity to landfill sites when they become available.

The Subject Property was listed for sale in August of 2017 and the Real Estate Branch (the "Branch") was instructed to secure the land on behalf of the Water and Waste Department.

The City engaged an appraiser to estimate the market value of the Subject Property. The appraisal assumed a highest and best industrial storage use, based on the adjacent uses, environmental land constraints and the City's methane gas policy. The appraised value ranged between $100,000 and $420,000.

On January 14, 2019, the Branch made an offer of $150,000.00 to the owner of the Subject Property. The City's offer was rejected and subsequently increased to $175,000.00. The City's second offer was also rejected and countered by the owner at $300,000.00. The City did not accept this counteroffer.

The City continued negotiations and the owner proposed a purchase price of $255,000.00. This proposed purchase price falls within the appraised market value range and is supported by the Water and Waste Department.

It is noted that the Real Estate Transaction Management Framework indicates that a Phase I Environmental Site Assessment ("ESA") should be completed on certain acquisitions. In this instance, an ESA is unnecessary because the City is knowingly accepting contaminated land which is monitored by the Water and Waste Department.

Should the proposed acquisition be approved, the transaction is expected to close in January or February 2019.
