EXECUTIVE SUMMARY

The Public Service is seeking Council support for the initiation of an application to designate Brookside Cemetery as a National Historic Site. Brookside Cemetery is one of the oldest cemeteries in Winnipeg and is home to a Field of Honour which is one of the largest of its kind in Canada.

A National Historic Site designation will further highlight and recognize the historical significance of Brookside Cemetery and result in increased public awareness and elevated community perception. Designation may also give rise to opportunities for future grants/funding.

RECOMMENDATIONS

1. That Council endorse an application with Parks Canada to designate Brookside Cemetery as a National Historic Site.

2. That the Proper Officers of the City be authorized to do all things necessary to implement the foregoing.

REASON FOR THE REPORT

Support from Council is being sought prior to the Public Service formally pursuing an application.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no implications associated with this recommendation.

HISTORY/DISCUSSION

National Historic Sites are places that have been designated by the Federal Minister of the Environment on the advice of the Historic Sites and Monuments Board of Canada as being of national historic significance. There are currently 23 National Historic Sites in Winnipeg, including the Exchange District National Historic Site of Canada and The Forks National Historic Site of Canada. Additionally, there are a number of cemeteries in Canada with a National Historic Site designation, primarily located in Ontario and Quebec.

Brookside Cemetery is one of the oldest cemeteries in Winnipeg with the first interment having taken place in 1878. It is also home to a Field of Honour, which serves as the final resting place for more than 11,000 Veterans, Peacekeepers, Merchant Marines and others with military service from the First World War, the Second World War, the Korean War, the Vietnam War and the Canadian Forces. The Field of Honour is the oldest and one of the largest of its kind in Canada.

Brookside Cemetery appears to meet the application criteria for designation as a National Historic Site. The Field of Honour would serve as the centrepiece of an application and would include the following key elements:

- The beamed design incorporating all upright Military monuments cannot be found on this scale anywhere else in Canada. It is a design used in the largest Field of Honour's across the world to commemorate Veteran's and War Dead of the two World Wars;
- The Stone of Remembrance, which is the only one of its kind in North America, commemorates the War Dead of the Commonwealth Forces of the First World War and Second World War;
- The Cross of Sacrifice which was erected by the Commonwealth War Graves Commission in memory of those who made the supreme sacrifice during the First World War. There are 24 such crosses in Canada; and
- The Tear Drop Section is the only section in a cemetery in Canada where so many war dead can be found all interred together in one section – 151 interments,145 of which are War Dead.

A National Historic Site designation will further highlight and recognize the historical significance of Brookside Cemetery and result in increased public awareness and elevated community perception. It will also open up potential opportunities for funding. For example, owners of designated sites are able to apply for funding through the National Cost-Sharing Program for Heritage Places. For 2020-2021, total funding available under the program is approximately $1,000,000.
