Minute No. 476
Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – July 13, 2020

Item No. 13 Subdivision and Rezoning – 252, 256 & 260 River Road and 81 Blackmore Avenue (St. Vital Ward) File DASZ 4/2020 [c/r DAC 7/2019 & DAV 118191/2020D]

COUNCIL DECISION:

Council concurred in the recommendation of the Standing Policy Committee on Property and Development, Heritage and Downtown Development and adopted the following:

1. That the plan of subdivision under Development Application No. DASZ 4/2020 be approved for preparation as a plan of subdivision (the "Plan") by a Manitoba Land Surveyor in accordance with the map dated June 11, 2020 and attached as Schedule "A" to this report, with such minor changes as may be required, and registration in the Winnipeg Land Titles Office, subject to the following:

    A. That the Developer be required to enter into a Servicing Agreement with the City pursuant to subsection 259(1) of the City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated April 22, 2020 and attached as Schedule "B" to this report, with the following amendments:

        i. Add the following new Section I:

        "Section I – Plan Considerations:

        1) The Developer shall, at no expense whatsoever to the City, legally open property required for a widening to the west side of River Road to accommodate a cycling, multi-use and/or pedestrian facility, all as determined by and to the satisfaction of the Director of Public Works."

        ii. Renumber Section I – Servicing Conditions to the following:

        "Section II – Servicing Conditions"

        iii. In Section II, add the following new conditions:

Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – July 13, 2020

COUNCIL DECISION (continued):

"7) Private Approaches

The Developer shall, at no expense whatsoever to the City, submit application to the Public Works Department to remove or relocate the existing private approach to River Road, approximately 3.0m north of 252 River Road, and restore the boulevard, curb, and sidewalk, all as determined by and to the satisfaction of the Director of Public Works.

8) Multi-Use Pathway
The Developer shall, at no expense whatsoever to the City, construct a cycling, multi-use and/or pedestrian facility between Bishop Grandin Boulevard and the proposed private approach and all related works including but not limited to the possible removal of the existing sidewalk, all as determined by and to the satisfaction of the Director of Public Works.

9) Utilities
The Developer shall, pay the full cost to convert existing overhead services in River Road, abutting the Planned Area, to underground and replace with ornamental street lighting, to the satisfaction of the Director of Public Works.

10) River Road Intersection Improvements
The Developer shall pay to the City, prior to the release of subdivision mylars for registration in the Winnipeg Land Titles Office, up to $25,000.00 of the costs to install a protected left traffic signal for northbound motorists at the intersection of Bishop Grandin Boulevard and River Road, or alternatively pay their share of the cost of implementing advance signal warning signage on Bishop Grandin Boulevard, as determined by and to the satisfaction of the Director of Public Works."

iv. Renumber Section II – Costs and Fees to the following:

"Section III – Costs and Fees"

Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – July 13, 2020

COUNCIL DECISION (continued):

2. That the Winnipeg Zoning By-law No. 200/2006 be amended by rezoning the subject land to a "RMF-S" Residential Multi-Family Small District and "PR-1" Parks and Recreation 1 (Neighbourhood) as shown on the map dated June 11, 2020 and attached as Schedule "A" to this report, subject to the following conditions:

    A. That the developer enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

        i. The owner must construct the Works in conformance with the plans submitted as "Appendix D", otherwise plans must be submitted showing the location and design of any and all proposed:

            a. buildings
            b. accessory parking areas
            c. private approaches
            d. garbage enclosures
            e. pedestrian pathways
            f. fencing
            g. landscaping

            on the Owner's Land ("Works") to the City's Director of Planning, Property and Development ("Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

        ii. That, the minimum setback to any principal building from the south property line shall not be less than 80 feet.

3. That the City enter into, execute and deliver with the Developer

    A. a Servicing Agreement in accordance with Recommendation 1; and

    B. a Zoning Agreement in accordance with Recommendation 2, and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – July 13, 2020

COUNCIL DECISION (continued):

4. That authority be delegated to the City's Director of Planning, Property and Development (the "Director") to negotiate and approve the terms and conditions of the Servicing Agreement, the Zoning Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

5. That this matter will be deemed to be concluded and all approvals in connection with this matter will expire if a by-law to implement this report (the "By-law") is not enacted within 2 years after the date on which this report is approved by Council unless the developer applies for an extension of time before the expiration of the 2 year period and Council approves the extension.

6. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare and bring it directly to Council for enactment of the By-law in accordance with the above.

7. That the subdivision section of the by-law shall come into force when the Servicing Agreement is fully executed and the Plan is registered in the Winnipeg Land Titles Office.

8. That the zoning section of the by-law shall come into force when the Zoning Agreement is registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

9. That the By-law will be repealed without coming into force 1 year after the date it is enacted if the Plan and the Zoning Agreement are not registered in accordance with recommendations 7 and 8 unless the developer applies for an extension of time before the expiration of the 1 year period and Council approves the extension.

10. That this matter will be deemed to be concluded and all approvals in connection with this matter will expire if the necessary Plan approval signatures on behalf of the City have not been secured within 1 year after the date on which the By-law in enacted unless the developer applies for an extension of time before the expiration of the 1 year period and Council approves the extension.

11. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – July 13, 2020

DECISION MAKING HISTORY:

Moved by Councillor Gilroy,

That the recommendation of the Standing Policy Committee on Property and Development, Heritage and Downtown Development be adopted by consent.

Carried

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On July 15, 2020, the Executive Policy Committee concurred in the recommendation of the Standing Policy Committee on Property and Development, Heritage and Downtown Development and submitted the matter to Council.

STANDING COMMITTEE RECOMMENDATION:

On July 13, 2020, the Standing Policy Committee on Property and Development, Heritage and Downtown Development concurred in the recommendation of the Riel Community Committee and submitted the matter to the Executive Policy Committee and Council.

COMMUNITY COMMITTEE RECOMMENDATION:

On June 25, 2020, the Riel Community Committee concurred in the recommendation of the Winnipeg Public Service with the following amendments:

- In Recommendation 1.A., delete the period after "Schedule "B" to this report" and replace with the following:

  ", with the following amendments:

  i. Add the following new Section I:

  "Section I – Plan Considerations:

  1) The Developer shall, at no expense whatsoever to the City, legally open property required for a widening to the west side of River Road to accommodate a cycling, multi-use and/or pedestrian facility, all as determined by and to the satisfaction of the Director of Public Works."

  ii. Renumber Section I – Servicing Conditions to the following:

Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – July 13, 2020

DECISION MAKING HISTORY (continued):

COMMUNITY COMMITTEE RECOMMENDATION (continued):

"Section II – Servicing Conditions"

iii. In Section II, add the following new conditions:

"7) Private Approaches
The Developer shall, at no expense whatsoever to the City, submit application to the Public Works Department to remove or relocate the existing private approach to River Road, approximately 3.0m north of 252 River Road, and restore the boulevard, curb, and sidewalk, all as determined by and to the satisfaction of the Director of Public Works.

8) Multi-Use Pathway
The Developer shall, at no expense whatsoever to the City, construct a cycling, multi-use and/or pedestrian facility between Bishop Grandin Boulevard and the proposed private approach and all related works including but not limited to the possible removal of the existing sidewalk, all as determined by and to the satisfaction of the Director of Public Works.

9) Utilities
The Developer shall, pay the full cost to convert existing overhead services in River Road, abutting the Planned Area, to underground and replace with ornamental street lighting, to the satisfaction of the Director of Public Works.

DECISION MAKING HISTORY (continued):

COMMUNITY COMMITTEE RECOMMENDATION (continued):

iv. Renumber Section II – Costs and Fees to the following:

"Section III – Costs and Fees"

and forwarded the matter to the Standing Policy Committee on Property and Development, Heritage and Downtown Development.

PUBLIC HEARING SUMMARY

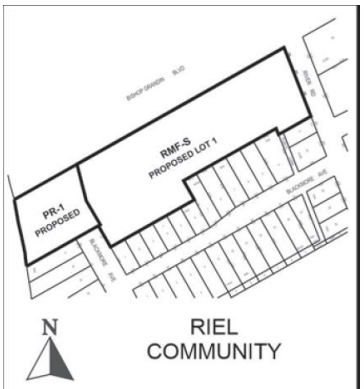

File: DASZ 4/2020

Before: Riel Community Committee
Councillor Allard, Chairperson
Councillor Chambers
Councillor Mayes

Public Hearing: June 25, 2020
Council Building, 510 Main Street

Applicant: Sherwood Development Ltd. (Louis Pereira)

Subject:

APPLICANT: Sherwood Development (2016) Ltd. (Louis Pereira)
FILE: DASZ 4/2020
PROPOSAL: An application for the approval of the plan of subdivision shown outlined above as may be determined by Council and for a proposed zoning change to By-law No. 200/2006 by rezoning the land shown outlined above from an "R1-M" RESIDENTIAL SINGLE-FAMILY (MEDIUM) DISTRICT to an "RMF-S" RESIDENTIAL MULTI-FAMILY (SMALL) DISTRICT AND "PR1" PARKS AND RECREATION 1 (NEIGHBOURHOOD) DISTRICT to facilitate the consolidation of land, which includes the closing of the abutting public lane, to allow the construction of multi-family dwellings and the establishment of Public Reserve. **For information, phone Ms. E. Finnigan Planner at 204-986-8602**
DEMANDEUR: Sherwood Development (2016) Ltd. (Louis Pereira)
N° DE DOSSIER: DALZ 4/2020
PROJET: Demande d'approbation par le conseil municipal du plan de lotissement délinéé ci-dessus et proposition de modification du *Zoning By-law No. 200/2006* (règlement municipal sur le zonage) visant à modifier le zonage des sols délinéés ci-dessus de sorte qu'ils passent de la catégorie R1-M (secteur d'habitations unifamiliales moyennes) à la catégorie RMF-S (secteur de petites habitations multifamiliales) et à la catégorie PR1 (secteur des parcs et des loisirs 1), en vue de faciliter le remembrement du bien-fonds, ce qui comprend la fermeture du droit de passage public adjacent, et de permettre la construction d'habitations multifamiliales et l'établissement d'une réserve publique. **Pour plus de renseignements, communiquez avec M^me^E. Premises Affected: 252, 256 & 260 Road and 81 Blackmore Avenue

For submission to: The Standing Policy Committee on Property and Development, Heritage and Downtown Development

Prepared by: Rebecca Ford, Committee Clerk
Riel Community Committee

Report date: June 30, 2020

Community Committee Recommendation:

On June 25, 2020, the Riel Community Committee concurred in the recommendation of the Winnipeg Public Service, as amended, and recommended to the Standing Policy Committee on Property and Development, Heritage and Downtown Development:

1. That the plan of subdivision under Development Application No. DASZ 4/2020 be approved for preparation as a plan of subdivision (the "Plan") by a Manitoba Land Surveyor in accordance with the map dated June 11, 2020 and attached as Schedule "A" to this report, with such minor changes as may be required, and registration in the Winnipeg Land Titles Office, subject to the following:

    A. That the Developer be required to enter into a Servicing Agreement with the City pursuant to subsection 259(1) of the City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated April 22, 2020 and attached as Schedule "B" to this report***, with the following amendments:***

        i. Add the following new Section I:

        "Section I – Plan Considerations:

        1) The Developer shall, at no expense whatsoever to the City, legally open property required for a widening to the west side of River Road to accommodate a cycling, multi-use and/or pedestrian facility, all as determined by and to the satisfaction of the Director of Public Works."

        ii. Renumber Section I – Servicing Conditions to the following:

        "Section II – Servicing Conditions"

        iii. In Section II, add the following new conditions:

"7) Private Approaches

The Developer shall, at no expense whatsoever to the City, submit application to the Public Works Department to remove or relocate the existing private approach to River Road, approximately 3.0m north of 252 River Road, and restore the boulevard, curb, and sidewalk, all as determined by and to the satisfaction of the Director of Public Works.

8) Multi-Use Pathway

The Developer shall, at no expense whatsoever to the City, construct a cycling, multi-use and/or pedestrian facility between Bishop Grandin Boulevard and the proposed private approach and all related works including but not limited to the possible removal of the existing sidewalk, all as determined by and to the satisfaction of the Director of Public Works.

9) Utilities

The Developer shall, pay the full cost to convert existing overhead services in River Road, abutting the Planned Area, to underground and replace with ornamental street lighting, to the satisfaction of the Director of Public Works.

10) River Road Intersection Improvements

The Developer shall pay to the City, prior to the release of subdivision mylars for registration in the Winnipeg Land Titles Office, up to $25,000.00 of the costs to install a protected left traffic signal for northbound motorists at the intersection of Bishop Grandin Boulevard and River Road, or alternatively pay their share of the cost of implementing advance signal warning signage on Bishop Grandin Boulevard, as determined by and to the satisfaction of the Director of Public Works."

iv. Renumber Section II – Costs and Fees to the following:

"Section III – Costs and Fees"

2. That the Winnipeg Zoning By-law No. 200/2006 be amended by rezoning the subject land to a "RMF-S" Residential Multi-Family Small District and "PR-1" Parks and Recreation 1 (Neighbourhood) as shown on the map dated June 11, 2020 and attached as Schedule "A" to this report, subject to the following conditions:

A. That the developer enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

i. The owner must construct the Works in conformance with the plans submitted as "Appendix D", otherwise plans must be submitted showing the location and design of any and all proposed:

a. buildings
b. accessory parking areas
c. private approaches
d. garbage enclosures
e. pedestrian pathways
f. fencing
g. landscaping

on the Owner's Land ("Works") to the City's Director of Planning, Property and Development ("Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

ii. That, the minimum setback to any principal building from the south property line shall not be less than 80 feet.

3. That the City enter into, execute and deliver with the Developer

A. a Servicing Agreement in accordance with Recommendation 1; and

B. a Zoning Agreement in accordance with Recommendation 2, and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

4. That authority be delegated to the City's Director of Planning, Property and Development (the "Director") to negotiate and approve the terms and conditions of the Servicing Agreement, the Zoning Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

5. That this matter will be deemed to be concluded and all approvals in connection with this matter will expire if a by-law to implement this report (the "By-law") is not enacted within 2 years after the date on which this report is approved by Council unless the developer applies for an extension of time before the expiration of the 2 year period and Council approves the extension.

6. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare and bring it directly to Council for enactment of the By-law in accordance with the above.

7. That the subdivision section of the by-law shall come into force when the Servicing Agreement is fully executed and the Plan is registered in the Winnipeg Land Titles Office.

8. That the zoning section of the by-law shall come into force when the Zoning Agreement is registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

9. That the By-law will be repealed without coming into force 1 year after the date it is enacted if the Plan and the Zoning Agreement are not registered in accordance with recommendations 7 and 8 unless the developer applies for an extension of time before the expiration of the 1 year period and Council approves the extension.

10. That this matter will be deemed to be concluded and all approvals in connection with this matter will expire if the necessary Plan approval signatures on behalf of the City have not been secured within 1 year after the date on which the By-law in enacted unless the developer applies for an extension of time before the expiration of the 1 year period and Council approves the extension.

11. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

Note: The wording in bold and italics denotes amendments made by the Community Committee.

The Riel Community Committee provided the following supporting reasons for its recommendation:

1. There is quite a history on this. I moved in to St. Vital in 1970. River Road was gravel and my friend Bob Watson talked to me recently about how great it was because his dad would take him out in the snowmobile in winter. You'd go down there, and then you're on to the Hydro right of way and you could go snowmobiling. Those days are long passed. Those days started to go, really, in the late 70's. We have a copy of the March 4, 1976 St Vital Lance paper and its important. It says "The Fort Garry-St. Vital Bridge gets OK". In here there's a line that says "the city's proposal included wide-looping road connections, cloverleaves and overpasses at three locations including River Road in St. Vital". That was the city's proposal, the province only put in half the money, or a little more than half of what was needed. We got what we got in 1978. It was good to get a bridge; it was good to get Bishop Grandin done but, no overpasses.

2. One of my predecessors Councillor Pierce, for whom I named a park, fascinating woman, first female Councillor for St. Vital, said in 1976 "Let's gets a bridge & connection to St. Mary's right now. The rest, extensions and overpasses will come in the future". I can't fault her, but she thought, obviously that someday these overpasses will be built, and as you heard Mr. Patman say "We're not there yet, and we may not be there very soon". We've got that situation then since 1978, Bishop Grandin intersects with River Road at a level crossing, there are no overpasses, there are no cloverleaves. That has undoubtedly increased traffic down River Road. So has further expansion to the south.

3. So the history of the area deserves a little more run-through if you can bear with me. In 2001 there was a proposal for this same site which was put forward by the Y, more than 200 opposed to that, roughly 50 in favour. A petition with over 1,800 names, so actually more opposition to that, than what we have in front of us today. The Y proposal was for a building of 59,000 square feet, this is only two-thirds that size. The Y proposal was for 277 parking stalls, this is about two-thirds of that. The Y would have had 8,000 members and about (based on the study of the day), 1,300 traffic movements coming in and out, this is far less than that. This is quite a bit less onerous than the Y proposal of 2001. I think Councillor Steeves was right in 2001 to reject that proposal and wait for something better to come along. This is that "something better". Its 19 years later, but I think it's a better proposal. We've been through I think four different proposals in my 8.5 years. Councillor Steeves probably dealt with some as well. This is the first one that's made it this far, because the staff has been prepared to support it.

4. The temptation for the public might be to say "Well Steeves sided with the residents, but Councillor Mayes decided to ignore them." Actually, the Y proposal was opposed by the administration. That was a negative report and Councillor Steeves backed that. This is the other way; the administration has said quite strongly they favour this proposal. So like Councillor Steeves, I'm going to go with the administrative recommendation for the site.

5. In 2003 there was a nearby expansion in the River Pointe area, in fact some of the people who object to this proposal today, are in the houses that were approved in 2003. A street called Riverhaven Grove was put in, it was the last bit of the River Pointe area. A number of people then living in River Pointe objected to that expansion. It was 55 against and five in favour. Councillor Steeves voted to proceed with it. The staff recommended proceeding with it, so Riverhaven Grove, which is a very nice street, got approved in 2003. My point here is to say look, a number of expansions has occurred over the last 20 years, that has increased traffic. Like my predecessor, I'm voting with what the staff is recommending.

6. In 2007, there was an expansion in the River Pointe area for a street called Settlers Road. People appeared in opposition to that. The staff I think correctly said "No, we're going to finish that off". That's always been the vision for the neighbourhood is to finish-off Settlers, when the greenhouse/nursery gets purchased, so Qualico did that. Councillor Steeves I think correctly supported adding another 22 homes on Settlers Road. A number of expansions over time - there was community opposition to those, there is community opposition today. I take that seriously. I think my colleagues do, I think Councillor Steeves did when there was community opposition, but sometimes you have to take a step back and say I think this is the right thing for the community.

7. As indicated I had requisitioned two different traffic studies on River Road at least. One was 2013 looking at people living on the connecting streets objected to cut-through traffic. They, ironically, would like to see more on to River Road and Bishop. There were traffic counts done there on Avalon, Woodlawn, Greendell, Riel, Riverbend, the staff recommended no changes to the model that was currently in place. Which as far as a left-hand turn from northbound St. Mary's on to River in the morning, what people do there is they try and cut through. What I didn't want as a result of this proposal today was to try and encourage people to start cutting through. We haven't done that. We haven't said no left coming out of the new development, because that would have caused people to do U-turns on Blackmore or on Avalon, or on some of the other nearby streets.

8. Similarly, there was a traffic study done on River Road North of Bishop in 2018. It also didn't recommend any changes. I am alarmed to hear from Mr. Patman that his count is 9,000 instead of 5,000, which is what I was told in 2013, but in a way, that makes the developer's case which is that there's already a lot of traffic, we're only adding a very small bit to that.

9. There was some opposition saying nothings been done in our community and we pay high taxes. With respect, people do pay high taxes if their properties are worth a lot of money. It's a multiplier. It's the mill rate. If your property is worth more, you pay more. I'm perhaps being a little defensive here, but in the Minnetonka area, I have put money in to Darwin school for the basketball, and the Indigenous project. I've put in money for the new play structure at Minnetonka school (split that with the school division). If your child goes to a public high school and lives in this area, they probably go to Dakota, which I'm proud to say we've put in close to $2,000,000.00 there through the city. They might go to Collège Jeanne Sauve, and the city has put in $500,000.00 there. A writer has indicated they were upset about school cut-backs; well maybe the school board has made some reductions. The three biggest schools to receive funding from the city in this last term of office were all in St. Vital; Victor Mager, Dakota and C JS. If you live in this area, and your child goes to a public high school, I think we've backed those schools.

10. 20-something million dollar addition to Dakota Community centre, biggest expansion in the history of Winnipeg Community Centres. Also, recently $80,000.00 in to Greendell Community Centre, built on the earlier $300,000.00 that Rochelle Squires and I put in to Greendell Community Centre, so, money has gone in to the Centres.

11. St Vital Park, millions have gone in there. The pavilion, the toboggan slide, the washroom, the upcoming paving, the new staff house, the new boat launch Councillor Steeves put in, so, several millions has gone in to St. Vital Park, which is about 200 metres north of this site. A couple hundred thousand has gone in to St. Germain Park, which is about 200 metres east of this site, put a new play structure in it. Oakleaf Park, which is about 400 metres east of this site. In short, I think a fair bit of money has gone in to the neighbourhood.

12. At the risk of belabouring my point, the list of streets re-paved in the neighbourhood since 2012 includes Darwin, Winslow, Twin Pine, parts of River, Weeping Willow, Golden Willow, Oakridge is being done this year, Oakleaf is being done this year, Robertson was done, Riverbend was done , Metz was done, Millfield was done, Woodlawn and parts of Avalon. We put some money in to road paving in this neighbourhood. All of which is to say is, yes, we have as a city invested in to this neighbourhood.

13. Two items are left, people saying, put it somewhere else. It's a nice looking building, put it somewhere else where it's more appropriate like St. Mary's Road or St. Anne's Road, well…we've just dealt with some on St. Anne's Road, and people opposed buildings going in there. Councillor Chambers before he was a Councillor was here on the all-night session on Normand Park, which is on St. Mary's Road, where people said, no, this isn't appropriate, put it further south, put it outside the city, don't put it here on St. Mary's Road. I think its human nature to say, "There's got to be somewhere else where you can put these buildings". I think that's human nature, but, I have to say, it's a 5 acre site next to very-good bike paths, next to good transit, it's got good access to schools if people want access to schools, I mean it's a 55+ building, that might not be a big issue, but it's certainly got fantastic access to parks; River Pointe Park, the park that runs along the top of the dike that people can walk on. They can get to St. Vital Park. This is a very good site for potential development.

14. I remember saying to somebody on St. Anne's Road, when they objected and said "No, I think this huge lot behind me should always be a single-family home, even though where I am living is developed as condos", well at some point as a city, you have to move beyond rural zoning. If you have a five acre site, I think it's not unreasonable to say, we've got to make better use of this. The roadway went in in '78; I think this is the time to take the opportunity to do that.

15. Traffic. In a way, this is an opportunity to dynamite some action on traffic, which I know Steeves tried to do, and which I have tried to do with some studies, and to Councillor Allard's credit, very recently his committee approved of the yellow-flashing light advance warning on Bishop, which was a breakthrough in my ward. So this is an opportunity and I think Mr. Patman is serious when he says let's take a look at this, that is a clogged-up intersection. I know that. I've knocked on Mr. Geiger's door; I've knocked-on everybody's door around there. It isn't that I'm the roadblock and the rest of Council desperately wants to build an overpass, and for self-destructive reasons, I don't want that to go ahead. I'd love an overpass; I don't have the tens of millions of dollars. This however means I think we'll finally get some action at looking at doing something at this intersection. Its looks exactly the way it did in '78 or '79 when I used to go through there and the traffic has undoubtable increased. We can't block people from coming out to River Road. St. Amant is down the street. It's been there longer than anybody. People have to be able to work there, and to visit, and to get there. There is going to be access on to River, there isn't an overpass, what can we do? We can look at the signalization and try and make this better. The cut-through that was created about ten years ago through the median, we can see if we can make better use of that, but we'll come back to that.

16. In short, the height variance, really, I'll come back to that, it's pretty minor, and seven feet, but the setback is way, way more than what would be required. I think it's better for people on Blackmore than to have a 35 foot building built right-up against the back of their property. In short, it does seem like a good spot for some densification. It is near parks, it is near bike-paths, it is near transit.

17. Oddly, something the developer isn't doing, which is popular too, we have people asking us all the time to asphalt the path that runs along the top of the dike that behind all those properties in River Pointe. People ask for that quite often, except if they live in River Pointe, where they very much don't want that. The developer isn't proposing to do that. I'm fine with that. I think that's a reasonable compromise.

18. In short, I understand the concerns about traffic, but if you look at the history, I think Councillor Steeves did the right thing in 2001- he followed the staff recommendation. I think I'm doing the right thing for 2020 following the staff recommendation.

19. Somebody said "Hey I feel threatened when you say it could get worse than this"; it could get worse than that. We're not threatening; we're making a factual statement. I think Mr. Pereira has put in some effort here to try and accommodate the concerns. There were people in the wake of that January open-house who wrote-in in favour. There were people who wrote-in since then saying "Yeah, I'm in favour of this". There were people who wrote-in saying "Hey, if you could do this and this on traffic, I actually could live with this". So we're trying to take some steps on traffic. Look, I know it's about traffic. We had people saying there will be more litter, there'll be more crime. There's no evidence of that. Yes, there will be more pedestrian traffic, but we're not opposed to that. We like people out using the Bishop Grandin Greenway and the various pathways. I think there will be more bike usage if we do some of the steps that Ms. Finnigan has worked

very hard on over the years on this. We've been talking about this property for several years together.

20. It doesn't give me any great pleasure to approve this, but I think it's the right thing to do under the circumstances. Perhaps to belabour the point, Councillor Steeves rejected the Y proposal & went with the staff, I think that was the right thing. Councillor Steeves voted to go ahead with expansion of Riverhaven and Settlers, there was opposition from River Pointe to that, but I think those were the right decisions too and he backed the staff on that. Based on what we've heard today, the willingness to do something about the traffic, I think that's the opportunity that's being presented here.

Exhibits Filed:

1. Application dated March 18, 2020
2. Notification of Public Hearing dated May 8, 2020
3. Manitoba Status of Titles 1890678/1, 2025049/1, 3002424/1, 2018901/1

Exhibit "32" referred to in File DASZ 4/2020

ADMINISTRATIVE REPORT

Title: DASZ 4/2020 – 260 River Road

Issue: An application for consideration at the Public Hearing to consolidate four existing lots as well as an undeveloped public lane and rezone from 'R1-M' (Residential Single-Family Medium) to 'RMF-S' (Residential Multi-Family Small) and 'PR-1' Parks and Recreation 1 (Neighbourhood) to facilitate the construction of a multi-family development and to facilitate the extension of the Boni-Vital Parkway.

Critical Path: Riel Community Committee → Standing Policy Committee on Property and Development → Executive Policy Committee → Council

AUTHORIZATION

Author	Department Head	CFO	CAO
E. Finnigan, MCP	n/a	n/a	

RECOMMENDATIONS

1. That the plan of subdivision under Development Application No. DASZ 4/2020 be approved for preparation as a plan of subdivision (the "Plan") by a Manitoba Land Surveyor in accordance with the map dated June 11, 2020 and attached as Schedule "A" to this report, with such minor changes as may be required, and registration in the Winnipeg Land Titles Office, subject to the following:

   A. That the Developer be required to enter into a Servicing Agreement with the City pursuant to subsection 259(1) of the City of Winnipeg Charter in accordance with the report of the Administrative Coordinating Group dated April 22, 2020 and attached as Schedule "B" to this report.

2. That The Winnipeg Zoning By-law No. 200/06 be amended by rezoning the subject land to a "RMF-S" Residential Multi-Family Small District and "PR-1" Parks and Recreation 1 (Neighbourhood) as shown on the map dated June 11, 2020 and attached as Schedule "A" to this report, subject to the following conditions:

A. That the developer enter into a Zoning Agreement with the City pursuant to subsection 240(1) of The City of Winnipeg Charter in accordance with the following:

i. The owner must construct the Works in conformance with the plans submitted as "Appendix D", otherwise plans must be submitted showing the location and design of any and all proposed:

(a) buildings;

(b) accessory parking areas;

(c) private approaches;

(d) garbage enclosures;

(e) pedestrian pathways;

(f) fencing; and

(g) landscaping.

on the Owner's Land ("Works") to the City's Director of Planning, Property and Development ("Director") and the Riel Community Committee for approval prior to the issuance of any building or development permit, and thereafter must construct the Works in substantial conformance with the approved plans and maintain the Works to the satisfaction of the Director.

ii. That, the minimum setback to any principal building from the south property line shall not be less than 80 feet.

3. That the City enter into, execute and deliver with the Developer

A. a Servicing Agreement in accordance with recommendation 1; and

B. a Zoning Agreement in accordance with recommendation 2,

and such other agreements as determined necessary by the City Solicitor/Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

4. That authority be delegated to the City's Director of Planning, Property and Development (the "Director") to negotiate and approve the terms and conditions of the Servicing Agreement, the Zoning Agreement and any Ancillary Agreements in accordance with this report and such other terms and conditions determined necessary by the City Solicitor/Director of Legal Services to protect the interests of the City.

5. That this matter will be deemed to be concluded and all approvals in connection with this matter will expire if a by-law to implement this report (the "By-law") is not enacted within 2 years after the date on which this report is approved by Council unless the developer

applies for an extension of time before the expiration of the 2 year period and Council approves the extension.

6. That, upon instruction from the Director of Planning, Property and Development, the Director of Legal Services/City Solicitor prepare and bring it directly to Council for enactment of the By-law in accordance with the above.

7. That the subdivision section of the by-law shall come into force when the Servicing Agreement is fully executed and the Plan is registered in the Winnipeg Land Titles Office.

8. That the zoning section of the by-law shall come into force when the Zoning Agreement is registered in the Winnipeg Land Titles Office by way of caveat against the lands described therein.

9. That the By-law will be repealed without coming into force 1 year after the date it is enacted if the Plan and the Zoning Agreement are not registered in accordance with recommendations 7 and 8 unless the developer applies for an extension of time before the expiration of the 1 year period and Council approves the extension.

10. That this matter will be deemed to be concluded and all approvals in connection with this matter will expire if the necessary Plan approval signatures on behalf of the City have not been secured within 1 year after the date on which the By-law in enacted unless the developer applies for an extension of time before the expiration of the 1 year period and Council approves the extension.

11. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

- The applicant is proposing to consolidate four existing lots as well as an undeveloped public lane and rezone from R1-M (Residential Single-Family Medium) to 'RMF-S' (Residential Multi-Family Small) and 'PR-1' Parks and Recreation 1 (Neighbourhood) to facilitate the construction of a multi-family development and to facilitate the extension of the Boni-Vital Parkway.
- Rezoning applications require a Public Hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- The Report is being submitted for the Committee's consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, the subject properties will be consolidated and rezoned to 'RMF-S' and 'PR-1'.

HISTORY

DAZ 235/2001

DAZ 235/2001 was an application to rezone the subject property to 'PR-2' Parks and Recreation 2 (Community) for the construction of a 59,414 square foot YM-YWCA facility. The application was rejected by the Riel Community Committee.

CONSULTATION

In preparing this report there was consultation with: N/A

APPENDIX 'A'

FILE:	**DASZ 4/2020**
RELATED FILES:	DAV 20-118191\D, DAC 7/2019
COMMUNITY:	Riel Committee
NEIGHBOURHOOD #:	5.519 – Minnetonka Neighbourhood

SUBJECT: To consolidate four existing lots as well as an undeveloped public lane and rezone from 'R1-M' (Residential Single-Family Medium) to 'RMF-S' (Residential Multi-Family Small) and 'PR-1' Parks and Recreation 1 (Neighbourhood) to facilitate the construction of a multi-family development and to facilitate the extension of the Boni-Vital Parkway.

LOCATION: 260 River RD

APPLICANT: Louis Pereira
554 St Mary's RD Unit 200
Winnipeg , Manitoba R2M 3L5

OWNER: FOUAD GHAZALI
881 DUDLEY AVE
Winnipeg , Manitoba R3M 1R1

RECOMMENDATION: Approval with conditions

SITE DESCRIPTION

- The subject properties are located on the southwest corner of River Road and Bishop Grandin Boulevard, in the Minnetonka neighbourhood of the St Vital ward.
- The site is comprised of four (4) separate lots (i.e., 252, 256, and 260 River Road and 81 Blackmore Avenue) as well as an undeveloped public lane.
- The subject site is **approximately 4.9** acres in area and is currently occupied by two single family dwellings.
- The subject properties are located within the Areas of Stability – Recent Communities Policy Area under the *Complete Communities Direction Strategy*. The site is zoned 'R1-M' (Residential Single Family Medium)

Figure 1: Aerial Photo of Subject Site and Surrounding Uses *(flown 2018)*

SURROUNDING LAND USE AND ZONING (See Figure 2)

North: Bishop Grandin Greenway and Bishop Grandin Boulevard;

South: Single-family homes zoned 'R1-M' (Residential Single Family Medium) fronting onto Blackmore Avenue.

East: River Road; then single-family homes zoned 'R1-M' (Residential Single Family Medium).

West: The City's Primary Line of Defence (i.e., the dike); then the Red River.

Figure 2: Zoning of the site and surrounding area.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to consolidate four existing lots as well as an undeveloped public lane (see associated Lane Closing application DAC 7/2019) and rezone approximately 3.9 acres of land from 'R1-M' (Residential Single-Family Medium) to 'RMF-S' (Residential Multi-Family Small) for the purposes of constructing two 4-storey multi-family buildings. The buildings will contain a total of 128 residential units.
- Approximately 1.1 acres of land abutting the Red River will be rezoned to 'PR-1' Parks and Recreation 1 (Neighbourhood) and become publicly owned park space facilitating the extension of the Boni-Vital Parkway.
- A total of 192 parking stalls will be provided. Forty-two (42) parking stalls will be located at-grade and 150 parking stalls will be located below grade under the building.

- As part of the 192 parking stalls, there will be 19 visitor parking stalls and 18 accessible parking stalls.
- The development will include 40 bicycle parking spaces.
- Vehicular access to the property is proposed by way of an approach off River Road.
- Two pedestrian/cycling access points are proposed connecting the site to the public pedestrian/cycling pathways that run along the west side and north side of the property.
- The proposed development requires a variance for the proposed height of the buildings (see associated variance application DAV 20-118191\D).

ANALYSIS AND ISSUES

COLLABORATION

With the Urban Planning and Design Division

- The applicant has collaborated with the Urban Planning and Design Division on the subject development since the outset of the project. Discussions have taken place via email, phone, and in-person meetings.

With the Public

- The applicant held an open house on January 14, 2020 at the Greendell Community Centre.
- The applicant advertised the open house via a sign posted on the site as well as via the distribution of 300 invitations that were hand delivered to residents living within a 500m radius of the property.
- The open house was attended by 91 people.
- The applicant indicates that the main feedback received related to concerns about an increase in traffic along River Road.

OURWINNIPEG AND COMPLETE COMMUNITIES DIRECTION STRATEGY

- *The Complete Communities Direction Strategy* (CCDS) is one of four direction strategies supporting *OurWinnipeg*, the city's long-range development plan, and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg.
- The subject property is classified as an "Area of Stability – Recent Community" in *Complete Communities'* Urban Structure map. Areas of Stability will accommodate low to moderate density infill development to support more efficient use of land, infrastructure, and services as well as enhance housing choice and affordability.
- With regard to this proposal, the key policies guiding the development of Areas of Stability include:
    - Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.

  - Promote the form of buildings and spaces that are sensitive to the community context and that address the transition between new and existing development.
  - In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.
  - Support Complete Communities by ensuring diverse and high quality housing stock.
  - Focus housing growth to areas that have municipal servicing capacity to support intensification in addition to commercial and recreational amenities.
  - Provide opportunities to increase multi-modal connectivity when redevelopment occurs.

- Infill development is discussed within the Recent Communities introduction under the *CCDS*, that states:
  - *Recent Communities can also accommodate some infill development to increase housing choice, increase options for aging in place, and to maximize the use of existing infrastructure.*
- The Parks, Places and Open Spaces section of *CCDS* also applies to the subject application as approximately 1.1 acres of land will become publicly owned park space and an extension of the Boni-Vital Parkway. With regard to this proposal, the key policies guiding the development in regards to our Parks, Places and Open Spaces include:
  - Maintain our Ribbons of Green (riverbanks, urban street trees, green corridors) and provide a well-managed urban forest that contributes to air, water, environmental and aesthetic quality.
  - Protect and enhance public access to our riverbank and forest environments and expand ecological networks and linkages.
  - Provide safe and accessible park spaces and a continuous and integrated linear parkway network that connects neighbourhoods and communities to their parks and other major city attractions.
  - Continue to develop and improve pedestrian and bicycle friendly environments by expanding and enhancing the citywide multi-use path network.

PEDESTRIAN AND CYCLING STRATEGIES

- The Pedestrian and Cycling Strategies are intended to implement Winnipeg's walking and biking vision, including infrastructure investments. The Pedestrian and Cycling Strategies are ultimately intended to support and build on the vision and policy direction of several overarching documents: OurWinnipeg, Direction Strategies (including CCDS), and the City's Universal Design Policy, as well as the Transportation Master Plan
- This project will help meet the following Key Directions from the Pedestrian and Cycling Strategy:
  - One of the key directions from this strategy is to expand and enhance the pedestrian and bicycle network (Key Direction 1A & 1B).

- 2B.v. Continue to look for opportunities to maximize connectivity between the pedestrian and bicycle networks and transit network.
- 5A.x. Aim to achieve pedestrian and cycling connections from new development sites to surrounding existing and anticipated networks.

CITY OF WINNIPEG ZONING BY-LAW 200/2006

CURRENT ZONING DISTRICT:

"R1-M" Residential Single-Family Medium

The R1-M zone is intended to accommodate primarily single-family development in lower-density areas. The dimensional standards in the R1-M zone are: a minimum front yard of 15 feet (except where a new residential structure is constructed on a block where at least 80 percent of the lots are developed then the new structure must be developed with a front yard consistent with the average of the existing front yards within that block or portion of the block); a minimum rear yard of 25 feet; a minimum side yard of 4 feet and, a maximum building height of 35 feet. The minimum lot area is 3,500 square feet.

PROPOSED ZONING DISTRICTS:

"RMF-S" Residential Multi-Family Small District

The RMF-S zone is intended to accommodate the development of multi-family units in areas with medium to high residential densities. The dimensional standards for multi-family structures in the RMF-S zone are: a minimum front yard of 20 feet; a minimum rear yard of 25 feet; a minimum interior side yard of 4 feet, a minimum corner side yard of 5 feet and, a maximum building height of 35 feet. The minimum lot area is 9,000 square feet and the minimum lot area per dwelling unit is 1250 square feet.

"PR1" Parks and Recreation 1 (Neighbourhood) District

The PR1 district is intended for sites that are generally passive neighbourhood and community parks and facilities with predominantly pedestrian and cyclist access. These sites may provide unstructured drop-in play and recreation opportunities, including play structures, passive parks, plazas and natural areas. Generally, no parking facilities are associated with these uses. These parks and open spaces typically occur in a residential neighbourhood or riverbank context and are generally accessed by residential streets.

Reason for the Subdivision and Rezoning

The applicant is proposing to consolidate four existing lots as well as an undeveloped public lane and rezone from R1-M (Residential Single-Family Medium) to RMF-S (Residential Multi-Family Small) and 'PR-1' Parks and Recreation 1 (Neighbourhood) to facilitate the construction of two 4-storey residential multi-family buildings and to facilitate the extension of the Boni-Vital Parkway.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The Urban Planning Division is supportive of a multi-family residential development on the subject property. The subject site is located along a major arterial roadway (i.e., Bishop Grandin Blvd) and a collector street (i.e., River Road). The site is within walking to distance to four bus routes (route #16; #54; #75; and #676) and abuts two active transportation pathways (i.e., the Bishop Grandin Greenway and the Boni-Vital Parkway).

- In order to meet the full life-cycle of housing needs within a community, *Complete Communities* encourages a mix of housing types in Recent Communities. At present, 94 percent of housing within the Minnetonka neighbourhood are single-family detached homes resulting in few housing options for residents no longer able or interested to live in single-family housing, such as older residents looking to downsize. The subject development is proposed to provide rental accommodation targeted to people aged 50+, an age cohort that represents approximately 43 percent of residents living in the Minnetonka neighbourhood according to the 2016 Census data.
- The applicant has worked closely with the Urban Planning Division to develop a proposal that is complementary to the existing scale, character and built form of the area. Most notably, the applicant has gone to great lengths to ensure the park-like character of the site with its river front setting is preserved by ensuring the building and site design encompass the following considerations:
    - fifty-eight (58) percent of the site (not including the lands dedicated as public park space) will be maintained as green space. This is largely made possible by locating the majority of the parking underground;
    - the buildings as well as the drive aisle are sited such that as many of the existing mature trees located on the south property line can be preserved. The applicant has engaged a professional arborist who completed an initial assessment of the existing trees in the winter months when the material for the application submission was being compiled. The arborist has committed to perform a more thorough assessment prior to construction (see Appendix C). As a condition of approval for the associated variance application, the Public Service is recommending that a report by a professional arborist be submitted prior to the issuance of site grading and development permits in order to assess the health of the existing trees as well as the measures required to be employed before, during, and after construction to preserve/protect the trees.
    - a high quality landscape plan is proposed as part of the project including a total of 135 new trees;
    - sod will be planted on the roof of a section of the underground parkade located partially above grade, between the two buildings;
    - the applicant is proposing to include two pedestrian/cycling pathways one that will connect the development to the Bishop Grandin Greenway to the north; and one that will connect to the extension of the Boni-Vital Parkway to the west;
    - the building incorporates a high quality façade design with varying articulations, a combination of cladding materials and colours which helps to break-up the massing of the building and enhance the overall appearance of the development.

- It is also important to note that ensure compatibility with the neighbouring properties to the south, the applicant is proposing a significant south side yard setback from the proposed buildings to the single-family homes located along this shared property boundary. The bulk of the development includes a setback in excess of 100 feet from the south property

line. A small portion of the building closest to River Road includes a setback of approximately 85 feet to the shared property boundary with 264 River Road.

- A key direction policy of the *Complete Communities Direction Strategy* is to focus growth in a manner that: "*concentrates urban development in a built form that helps to optimize existing investment, municipal infrastructure, and facilities"*. One of the ways that the City can grow sustainably while tackling its infrastructure deficit is through infill development. Capitalizing on remnant properties within existing built up communities provides an opportunity to accommodate growth while not adding significant impact on the provision of city services and infrastructure. The subject site is one of the last sites in the Minnetonka Neighbourhood that has good access, is fully serviced and is large enough to accommodate a multi-family residential housing development of this scale

PARKS AND PATHWAYS

- As a condition of a subdivision and rezoning application, a developer is required to contribute a portion of the land to be developed to the City of Winnipeg for parks purposes. The subject application provides a great opportunity to acquire strategic riverbank lands required to help extend the Boni-Vital Pathway, an important natural green space and public recreation corridor for the city (see Figure 3).
- As part of this application, the developer will be responsible for the construction of the trail extension along the primary dike.

Figure 3: Boni-Vital Parkway

RECOMMENDED ZONING AGREEMENT

Substantial Conformance/Plan Approval

Recognizing the amount of work that has been done on the design of the project in consultation with the Urban Planning Division to-date, we are recommending the project either be built in substantial conformance with the drawings submitted as part of the DASZ application and included in Appendix D of this report, or if changes are required, that the revised plans be submitted to the Director of Planning, Property and Development and Riel Community Committee for review prior to the issuance of a development permit on the lot. Recommended design guidelines for approval are included in Appendix B to assist with any future plan approval review.

Setback

While the applicant is proposing a significant south side yard setback in excess of 85 feet, the Public Service is recommending this setback be restricted in the Zoning Agreement to 80 feet. This setback is recommended to help ensure compatibility between the existing single-family dwellings and the proposed development.

RECOMMENDATION

The Urban Planning Division recommends **approval with conditions** for the following reasons:

- The proposal is consistent with the policies guiding development in the *Areas of Stability – Recent Communities policy area* in the *Complete Communities Direction Strategy* which supports context sensitive infill development that addresses the transition between new and existing development and supports a mix of housing types in order to meet the full life-cycle of housing needs within the community.
- The proposal is designed with a high degree of quality helping to ensure the park-like character of the site with its river front setting is preserved.
- The development will help to facilitate an extension of the Boni-Vital Parkway.

SCHEDULE B

REPORT OF THE ADMINISTRATIVE COORDINATING GROUP – April 22, 2020

RE: PROPOSED SUBDIVISION AND REZONING OF LAND LOCATED AT 252, 256, AND 260 RIVER ROAD, 81 BLACKMORE AVENUE AND ABUTTING PUBLIC LANE

The Administrative Coordinating Group (ACG) reviewed the servicing requirements for DASZ 4/2020. It is recommended that the approval of DASZ 4/2020, if granted, be subject to the applicant entering into a Servicing Agreement and address the following items, where applicable:

Section I – Servicing Considerations

1) Water System Assessment

The Water and Waste Department has advised that there is adequate servicing for the proposed development based on the development plans provided. Additional review will be required by their Department should the plans of development change during the design process.

2) Water Mains

The Developer shall pay to the City, prior to the release of subdivision mylars for registration in the Winnipeg Land Titles Office, their share of the water mains installed by others in River Road, based on the portion of frontage of 252 River Road, as determined by and to the satisfaction of the Director of Water and Waste.

3) Wastewater Sewers

The Developer shall pay to the City, prior to the release of subdivision mylars for registration in the Winnipeg Land Titles Office, their share of the wastewater sewers installed by others in River Road, based on the portion of frontage of 252 River Road, as determined by and to the satisfaction of the Director of Water and Waste.

4) Land Drainage Sewers

The Developer shall pay to the City, prior to the release of subdivision mylars for registration in the Winnipeg Land Titles Office, their share of the land drainage system (trunk and lateral), as determined by and to the satisfaction of the Director of Water and Waste.

5) Flood Protection

All construction works must be in accordance with flood proofing criteria.

6) Public Reserve

(a) The Developer shall dedicate as Public Reserve at least 8% of the land contained within the overall development area and shall, at no expense whatsoever to the City, undertake landscape improvements and pay their share of the cost of services in streets abutting the dedicated land all in accordance with plans and specifications approved by the Director of Public Works.

(b) If the Developer is unable to dedicate a full 8% of the land, the Developer shall dedicate an amount of land satisfactory to the Directors of Public Works and Planning, Property, and Development, and compensate the City for any shortfalls in the amount of land, servicing and improvements not provided, at the then current values, by payment of cash, or, by the provision of an equivalent value of additional site amenities in the Public Reserves within the Planned Area, as approved by the Directors of Public Works and Planning Property and Development.

i. The lands comprising the City's Primary Line of Defence (the dike) shall not count towards Public Reserve dedication area.

(c) Landscape improvements of the Public Reserve lands shall be done in accordance with plans and specifications provided by the Developer and approved, prior to the commencement of construction, by the Directors of Public Works and Water and Waste. The scope of landscaping is expected to include some nominal grading, sodding, and land drainage, as well as construction of path(s) and provision of parkway signage:

i. Path construction includes supply and installation of the segment of *Bonivital Parkway* path which shall be constructed along the top of the dike, and shall connect the Bishop Grandin Greenway Trail, out to Blackmore Avenue, and shall include restoration of the balance of the area, or any damaged areas, with sod.

ii. If deemed necessary by the Director of Public Works, the Developer shall, at no expense whatsoever to the City, supply and install bollards at the south limit of the path to prevent vehicle access onto the path, the specific details of which shall be confirmed through the Park plan approval process;

iii. It is hereby acknowledged that most of the riverbank lands will not require landscape improvements, but that in lieu of those works, the Developer shall supply and install, at no expense whatsoever to the City, *Bonivital Parkway* trail related signage at the north and south limits of the path, in conformance with the City's current the details and specifications.

(d) The Developer shall, at no expense whatsoever to the City, install continuous property line delineation between their private property and the adjacent Public Reserve, by way of bollards or solid fence (material and style is at the Developer's discretion), which shall be sited within the private property limits and

established by caveat to be the private property owners responsibility to maintain and repair thereafter.

i. For the west property limit, adjacent the dike, the Developer will need to confirm that the fence alignment will not to compromise the dike's integrity, to the satisfaction of the Director of Water and Waste, or otherwise must shift it eastward.

(e) The City will support the extension of a path from the private property connecting to the existing and proposed public paths - west to *Bonivital Parkway* and north to the *Bishop Grandin Greenway*, subject to the following:

i. All paths must be constructed by the Developer, at no expense whatsoever to the City;

ii. Work to be done in accordance with plans and specifications provided by the Developer and approved, prior to the commencement of construction, by the Directors of Public Works and, for works within the limits of the dike, by the Director of Water and Waste;

iii. The Developer shall obtain all necessary permits and agreements (a temporary construction easement may be required prior to undertaking these additional works on City land);

iv. The City shall not be responsible to control public access onto the private property, by these paths;

v. The Developer shall be responsible to maintain the portion of path on their land, and the City to conduct regular maintenance on the portion of the path on public land;

vi. The Developer shall be responsible for at least half the cost of repairs/refurbishment of the path on City land.

(f) Public Reserve improvements shall be undertaken by the time the build out has reached 80% and completed before reaching 100%, unless an extension of time has been previously approved, in writing, by the Director of Public Works.

(g) The Developer shall assume responsibility for all Public Reserve sites until they are developed, and throughout the maintenance period until Final Acceptance Certificate for Parks has been issued by the Director of Public Works.

(h) The Developer shall, at no expense whatsoever to the City, maintain Public Reserve improvements, in accordance with specifications approved by the Director of Public Works, for a period of two years following the issuance of a Construction Completion Certificate. The City reserves the right to impose longer maintenance terms for amenities and features, such as naturalized areas, that the Director of Public Works deems to be beyond the standard scope of Public Reserve improvements.

(i) Securities retained for Public Reserve improvements may be reduced following the issuance of a Construction Completion Certificate and site inspection and approval by the City, but shall not be released in full until as-built drawings have been received and accepted as complete by the Director of Public Works and Final Acceptance for Parks has been issued.

Section II – Costs and Fees

1) By-laws and Approvals

The Developer shall pay all of its and the City's costs, fees, and expenses associated with the preparation and attainment of approval for registration of the Zoning By-law(s) and plan(s) of subdivision, including all Municipal Board, Land Titles Office and other fees and expenses, all survey, engineering and advertising fees and costs, and all expenses incidental to the preparation of this Agreement and the physical development of the Planned Area.

2) Professional Fees

(a) The Developer shall pay the full cost of all design services, including preliminary engineering studies, servicing reports, servicing criteria, construction drawings and specifications, and grading and landscaping plans and specifications, to be provided by Consulting Engineer(s) approved by the City, for the design of the municipal services, parklands, parkways and associated works required to serve the Planned Area;

(b) The Developer shall pay the full cost of construction and landscaping supervision services provided by or on behalf of the City for field inspection, preparation of progress estimates, provision of as-built drawings by March 31 of the year following substantial performance of the work, and all other engineering consulting services related to the installation and acceptance of municipal services, and all associated works to serve the Planned Area.

3) Administration Fees

The Developer shall pay to the City, prior to the release of the subdivision mylars for registration in the Land Titles Office, an administration fee plus applicable GST to help defray the City's administration and related costs associated with the preparation and implementation of the Development Agreement.

APPENDIX 'B' **Design Guidelines**

Plan Approval Design Guidelines for DASZ 4/2020 – 260 River Road

1. Site Planning

1.1 The site layout and building orientation should ensure that the building relates appropriately to the street as well as the abutting active transportation pathways and neighbouring properties and creates a cohesive visual identity for the neighbourhood.

1.2 Site design should consider opportunities for enhancing personal security and safety by incorporating Crime Prevention Through Environmental Design (CPTED) principles.

1.3 Parking areas should be screened with landscaping or active uses.

1.4 Locate refuse storage areas and other building services internal to buildings or screened from view with appropriate fencing/landscaping.

2. Building Orientation and Design

2.1 The building façades should be well-articulated and should avoid featureless building massing.

2.2 The overall design should be made up of a distinctive, quality, architectural character and style that also avoids monotonous and featureless building massing and design.

2.3 Minimize blank walls – use landscaping, aesthetic characters (such as projections and offsets), change in cladding material, glass, balconies, etc. to break up tracts of continuous blank walls.

3. Landscaping

3.1 The existing mature landscaping along the south property boundary should be preserved where possible.

3.2 High-quality landscaping should be provided along the streetedge of the site as well as along the shared property boundaries with the Bishop Grandin Greenway and the Boni-Vital Parkway.

Re: 260 River Road

Dear Mr. Louis Pereira,

On December 5, 2019, I completed an initial viewing and some photography of the trees at the site of your proposed 260 River Road location. As winter conditions are in effect, much of what I need to examine is currently inaccessible.

There is a variety of cottonwood, elm, willow, ash, and spruce on the site of various form and branch structure. Many of the trees on the site are considered "re-gen" as they have grown from epicormic shoot growths from previous existing trees on the site. The trees of most primary significance at this time are the cottonwoods located on the south west corner of the property.

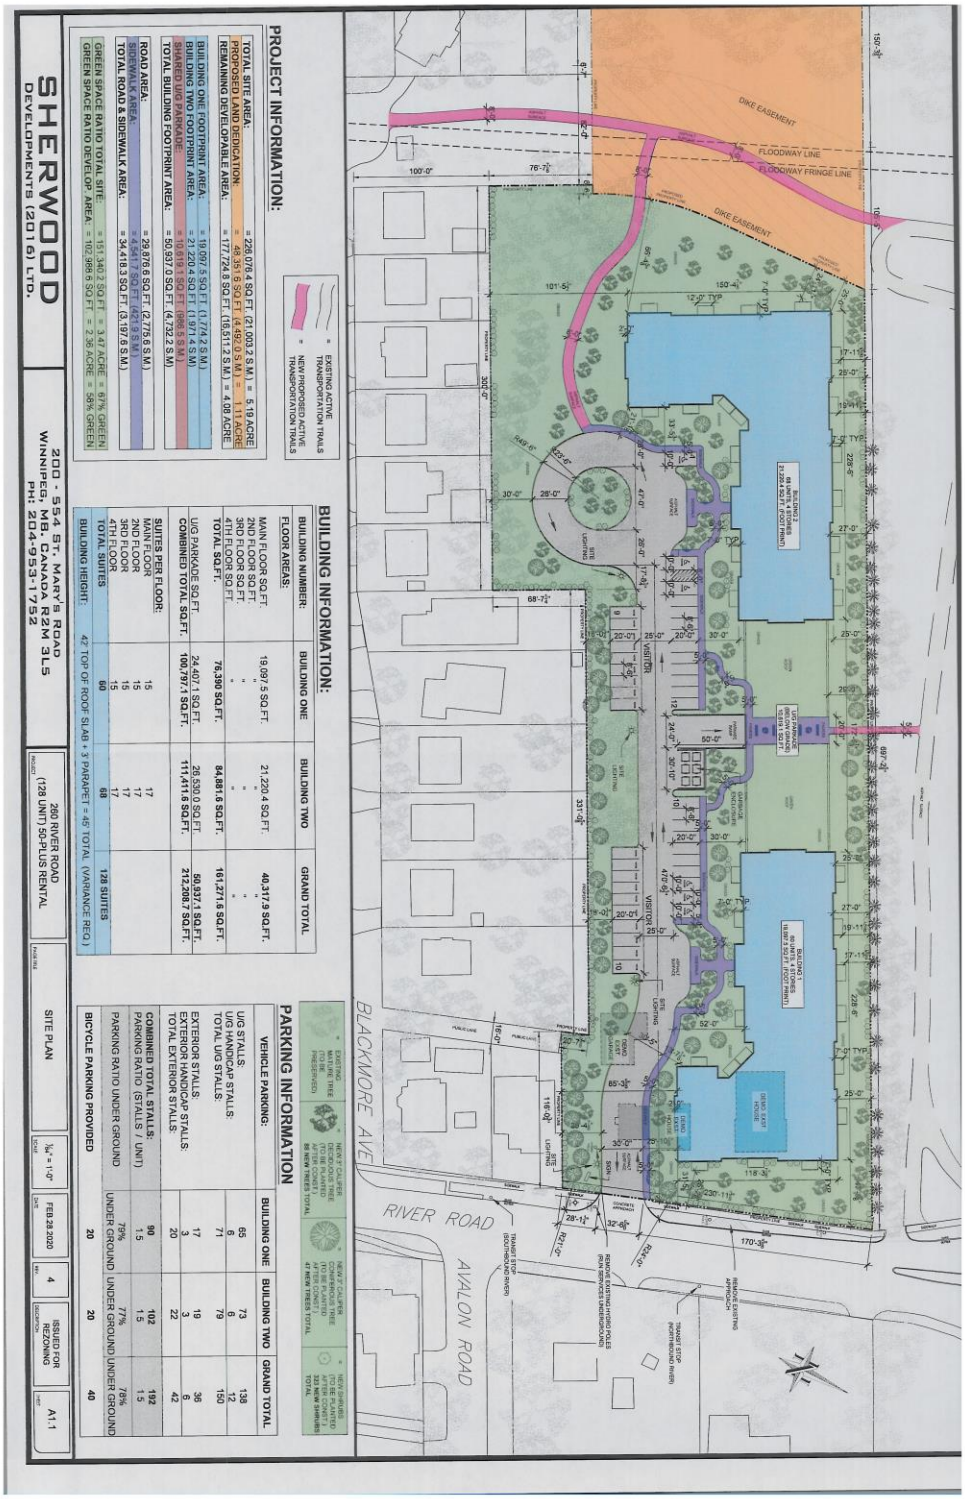

I will return to the site this spring once conditions are more suitable for assessment and field data collection that is required to complete the arborist report. This will be prior to any commencement of construction.

Sincere Regards,

Guy Shelemy
