To the Executive Policy Committee

Re: Report item #4: Neighborhood Economic Development Officer, on the Agenda of October 19, 2020

Please find Corydon Ave Business Improvement Zone in favor of the motion presented to Executive Policy

Committee for October 19, 2020, committee meeting, coming from the October 6, 2020 meeting of the Lord Selkirk-West Kildonan Community Committee.

As well the Corydon Ave BIZ:

- Would like to understand the consultation process with the BIZ Zones in reaching a 75% share of these costs to be shared with the BIZ Zones. This does not demonstrate a fair process or even a partnership process within working on the city streets, for delivery of services that have been falling onto the BIZ Zones shoulders more and more over the years, without any renumeration for these expanded expectations.
- As well, during these uncertain times of Covid, this is not a time to be adding more expectations onto struggling businesses. This needs a further review of the relationship of what the City Expects the BIZ Zones to continue to deliver, and what the City does not want to keep doing on keeping the streets clean and functional.

Sincerely,

Katia von Stackelberg

Corydon Ave BIZ, Executive director

Katia von Stackelberg
Executive Director
Corydon Avenue BIZ
