EXECUTIVE SUMMARY

The Audit Department's Audit Plan 2021 sets out the list of departmental projects planned for the coming year and highlights the status of the projects undertaken in 2020.

The Department proposes to temporarily suspend the two-year audit planning process for a single year. The focus of the Department for 2021 will be a number of investigations based on areas identified as high-priority through preliminary investigation of previous year's Fraud and Waste Hotline reports.

The hotline helps deter fraud, waste, and wrongdoing; strengthen internal control and mitigate risks; and improve policies and operating procedures. It is for this reason we believe it is in the best interests of our clients and stakeholders, to increase the resources dedicated to investigations and demonstrate our commitment to corporate accountability, transparency and a sound, ethical work environment.

HISTORY/DISCUSSION

The attached Audit Plan is an annual update and identifies the areas considered a priority for the coming year. The focus of the Department for 2021 will be a number of investigations based on areas identified as high-priority through preliminary investigation of previous year's Fraud and Waste Hotline reports. As identified in the Audit Department's 2019 Annual Report the volume and complexity of investigations has been increasing in recent years.

Individual investigations need to be conducted on a timely basis since in many cases there is a time sensitivity to the report contents. As the number of investigations has increased so has the number of hours required to perform the investigations. The Department has engaged a professional services firm to support internal resources in the timely investigation of the reports.

	# of Fraud & Waste Hotline Reports	# of Investigations Initiated
2020 (To October 31)	122	65
2019	117	58
2018	114	27

	Internal Resource Hours	External Resource Hours	Total Hours
2020 (To October 31)	880	519	1,399
2019	1,152	0	1,152
2018	657	0	657

The greater number of investigations undertaken over the last couple of years has afforded an opportunity to identify some areas of concern warranting broader investigation. The Audit Department has identified four organizational units and two process-oriented systems that we intend to perform investigations on in 2021. These investigations will provide assurance by evaluating key controls and internal processes. The specific areas to be investigated are not identified at this time to ensure continued preservation of evidence.
