Subject: Opposition to Report 10 for EPC tomorrow

Good Morning,

I am writing this in opposition to report 10 coming to Executive Policy Committee tomorrow.

I do not have a problem with an increase in funds for office expenses, but where I have the issue is the allowable expenses for said "office", specifically the ability (and willingness) to donate to community groups from this fund.

This is not an office expense, and if councillors wish to donate to community groups then there are many other grants available to them to use.

Thus I'm asking the committee to, if they agree to increasing the CWA fund allowance per ward, they make an amendment to the policy for allowable expenses.

Thank you,
Steve Snyder
