**Subject:** Plebiscite on Changing Speed Limits

Dear Sirs;

I would like to express my adamant support for a plebiscite in regards to reducing speed limits as suggested by Councillor Shaun Nason and Jeff Browaty. I am firmly opposed to any ad hoc reduction to speed limits for the following reasons;

- Speed limits are put in place to set the maximum speeds under ideal conditions. Every good driver knows when they should slow down. Target the bad drivers rather then punish everyone.
- Roads have been engineered to current speed limits. It does not make any sense to change the speed limits when the roads have already been engineered to current limits.
- This move has all the characteristics of a blatant tax grab

Kind Regards;

Barry Banek
