Subject: Plebiscite re: speed limit

Thank you for the opportunity to voice my views and be put on public record regarding the changing of speed limits and possible plebiscite

I feel that the reduction of speed limit is not a good idea for our city. Our streets have been engineered to safely move traffic at the 50km limit. I am an avid walker and I feel very safe with the speed limit at 50 on our side streets and do not see any reason to change it.

I think it should go to a plebiscite for the residents of the city of Winnipeg. It also would cost the city a lot of money to change signs which we, as taxpayers, should not have to pay for! Our money needs to go to much better things such as sidewalk and road repairs!

Thank you,
Louise Rattai
