Subject: Plebiscite on speed limits

** EXTERNAL EMAIL, USE CAUTION **

Dear Executive Policy Committee

Re plebiscite on speed limits

The speed of cars travelling through urban spaces is a public safety issue for which there is both scientific data and legal precedent from other cities to inform decision making.

The matter of limiting speed limits in residential areas to reduce injuries and fatalities from motor vehicle collisions should be decided based on the evidence available, not the preferences of Winnipeggers to reach their destination several seconds more quickly.

Thank you

K Braun
