Subject: Remote delegation: Jan 20/21 EPC item no.4 - municipal election question - speed limits in residential areas

Hello,

For a matter of public record, please note **I oppose the addition of a question related to lowering the residential speed limit to the 2022 Municipal Election/By-election for the position of mayor.**

Speed limits should be set by speed studies and evaluated by experts on city infrastructure, traffic planning and safety etc., not through the opinions of an uninformed public.

Thank you,
Laura Noël-Romas
