Minute No. 182
Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – January 18, 2021

Item No. 1 Amendment to the Encroachment By-law No. 12/2019

COUNCIL DECISION:

Council concurred in the recommendation of the Standing Policy Committee on Property and Development, Heritage and Downtown Development and adopted the following:

1. That a by-law to amend Encroachment By-law No. 12/2019 in accordance with this report (draft amending by-law is attached to this report as Schedule A), be enacted.

2. That the Public Service inform Ward Councillors when new encroachments are approved in their respective wards.

3. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

Report – Standing Policy Committee on Property and Development, Heritage and Downtown Development – January 18, 2021

DECISION MAKING HISTORY:

Moved by Councillor Gilroy,

That the recommendation of the Standing Policy Committee on Property and Development, Heritage and Downtown Development be adopted by consent.

Carried

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On January 20, 2021, the Executive Policy Committee concurred in the recommendation of the Standing Policy Committee on Property and Development, Heritage and Downtown Development and submitted the matter to Council.

STANDING COMMITTEE RECOMMENDATION:

On January 18, 2021, the Standing Policy Committee on Property and Development, Heritage and Downtown Development concurred in the recommendation of the Winnipeg Public Service, with the following amendment:

- Add the following new Recommendation 2 and renumber the remaining recommendation accordingly:

  "2. That the Public Service inform Ward Councillors when new encroachments are approved in their respective wards."

and submitted the matter to the Executive Policy Committee and Council.

ADMINISTRATIVE REPORT

Title: Amendment to the Encroachment By-law No. 12/2019

Critical Path: Standing Policy Committee on Property and Development, Heritage and Downtown Development – Executive Policy Committee – Council

AUTHORIZATION

Author	Department Head	CFO	CAO
M. Pittet	J. Kiernan	P. Olafson, Interim CFO	M. Ruta, Interim CAO

EXECUTIVE SUMMARY

On April 25, 2019, Council approved the Encroachment By-law No. 12/2019 which replaced the former Encroachment By-law No. 692/74. An exemption in the former by-law for conforming water service pipes and conforming private sewer service pipes was mistakenly not included in the new by-law. The amendments necessary to remedy this omission are attached as Schedule A to this report.

Non-conforming water service pipes and non-conforming private sewer service pipes will continue to be subject to the Encroachment By-law No. 12/2019 but will be reclassified as simple encroachments.

The Public Service is also recommending By-law amendments to provide for the waiver of fees for community garden encroachments and accessibility encroachments.

Finally, to expedite the approval process, the recommended By-law amendment authorizes the Public Service to approve all encroachments. Of the 154 active encroachments where a license fee is paid, only one license contains a fee which exceeds $500,000 over the lease term. Schedule B identifies the monetary value of the 154 active encroachments.

In a future report, subsequent by-law amendments will be proposed to Section 8 of the Neighbourhood Livability By-law No. 1/2008 and Section 3 of the Streets By-law No. 1481/77 to reference the Encroachment By-law No. 12/2019. The Neighbourhood Livability By-law and the Streets By-law include provisions for use of the right-of-way but do not reference the Encroachment By-law. All three by-laws will be cross-referenced to one another to confirm where the use of the right-of-way is governed.

RECOMMENDATIONS

1. That Council enact a by-law to amend Encroachment By-law No. 12/2019 in accordance with this report (draft amending by-law is attached to this report as Schedule A).

2. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

Council approval is required to amend a by-law and approve fees.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no environmental, operational, human resources, or other implications of the Report.

If the Public Service recommendation is concurred in, water service pipes and conforming private sewer service pipes will not require an encroachment license or an encroachment agreement, will be reclassified and will be subject to simple encroachment fees.

The proposed encroachment fee waivers will have a negligible financial impact to the City due to the small number of community gardens and accessibility encroachments.

Future amendments will be required to Section 8 of Neighbourhood Livability By-law No. 1/2008 and Section 3 of Streets By-law No. 1481/77 to maintain consistency with Encroachment By-law 12/2019.

- Section 8 of Neighbourhood Livability By-law No. 1/2008 authorizes the Director of Public Works to permit non-standard boulevard treatments (e.g. planting or pruning trees) that would otherwise be considered encroachments. Neighbourhood Livability By-law will be amended to refence Encroachment By-law 12/2019 to ensure no confusion exists between non-standard boulevard treatments and encroachments.
- Section 3 of Streets By-law No. 1481/77 authorizes Use of Streets Permits that would otherwise be considered an encroachment. Streets By-law No. 1481/77 will be amended to refence Encroachment By-law 12/2019 to ensure no confusion exists between use of streets permits and encroachments.

HISTORY/DISCUSSION

Conforming Pipes

On October 28, 2015, Council enacted the Water By-law No. 107/2015, section 67 of which amended the then Encroachment By-law No. 692/74 to exempt conforming water service pipes and conforming private sewer service pipes from the requirements of the Encroachment By-law.

On April 25, 2019, the Encroachment By-law No. 692/74 was replaced by the Encroachment By-law No. 12/2019 (the "New Encroachment By-law"). The exemption for conforming water service pipes and conforming private sewer service pipes was mistakenly not carried forward into the New Encroachment By-law.

Subsection 7(2) of the New Encroachment By-law provides that an encroachment licence is not required in respect of "utility infrastructure", among other things, but the definition of "utility infrastructure" specifically excludes private sewer service pipes and private water service pipes, regardless of whether they're conforming or non-conforming. Non-conforming water service pipes and non-conforming private sewer service pipes will continue to be subject to Encroachment By-law No. 12/2019 but will be reclassified as simple encroachments.

Encroachment Fee Waivers

Community gardens were not specifically considered when the New Encroachment By-law was approved and the existing fees could render community gardens financially unfeasible. It is proposed that community gardens be exempt from annual license fees and document preparation fees. Notwithstanding the fee waiver, an encroachment license and encroachment agreement will continue to be required for community garden encroachments. Presently, there are only three community gardens within a right-of-way, with the potential for a fourth.

Accessibility encroachments are necessary where the licensee is unable to provide a ramp or lift on their property for access into a building, as required by building code. In an effort to ensure accessibility to all, it is proposed that all fees related to accessibility encroachments be waived (i.e. application fees, annual license fees, document preparation fees). Notwithstanding the fee waiver, an encroachment license and encroachment agreement will continue to be required for accessibility encroachments. Presently, there are only three accessibility encroachments.

The Public Service recommends amending the New Encroachment By-law to incorporate the aforementioned changes and exemptions.

Encroachment Approval

Presently, the Public Service is authorized to approve simple encroachments and certain non-simple encroachments (i.e. seasonal patios). As a result, more than 100 encroachments continue to require approval from the Standing Policy Committee on Property and Development, Heritage and Downtown Development ("SPC"). The vast majority of these encroachments have

low monetary value which is well below the delegated authority for the approval of leases (the Public Service is authorized to approve leases with a gross value of less than $500,000).

Schedule B indicates the current annual fees of each encroachment. Only one encroachment exceeds $500,000 in gross contract value.

To reduce red tape for applicants and expedite the approval process, the recommended By-law amendment authorizes the Public Service to approve all encroachments. It is important to note that applicants would still be able to appeal a decision of the designated employee and the designated employee would retain the ability to refer applications to SPC where a Department Director, a member of the public, or the Ward Councillor has expressed opposition to the application.

FINANCIAL IMPACT

Financial Impact Statement Date: December 29, 2020

Project Name:

Amendment to the Encroachment By-law No. 12/2019

COMMENTS:

The reclassification of water service pipes and conforming private sewer service pipes to simple encroachments will result in increased revenues of +/- $4,000/annum and waiving accessibility encroachment fees will decrease revenues +/- $1,000/annum. Community gardens currently generate no revenue so waiving fees will have no financial impact.

The net impact of the recommendations is expected to be an increase in encroachment revenues of just $3,000/annum. As such, there are no significant financial implications associated with the recommendations contained in this report.

Mike McGinn December 29, 2020

CONSULTATION

This Report has been prepared in consultation with:

- Legal Services (as to legal issues)

OURWINNIPEG POLICY ALIGNMENT

03 Quality of Life
Direction 9: Collaborate with developers, community organizations and other partners to foster an age-friendly and accessible urban environment.

- With guidance from **Complete Communities,** encourage age-friendly and accessible new development in existing neighbourhoods.
- Incorporate age-friendly and accessible features in the renovation and maintenance of City facilities.
- Encourage local area plans to apply principles of Universal Design and Age-friendly Cities.
- Promote partnerships and opportunities for shared learning with other levels of government, developers, universities, colleges and community organizations on best practices in accessible and age-friendly design.
- Promote exemplary age-friendly and accessible design through awards and demonstration projects.

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

1.7 Increase opportunities to respond to food needs throughout Winnipeg and increase access to local and sustainable food

- Support local food procurement at City of Winnipeg facilities
