Community Committee Recommendation:

On April 9, 2021, the Assiniboia Community Committee concurred in the recommendation of the Winnipeg Public Service and recommended to the Standing Policy Committee on Property and Development, Heritage and Downtown Development:

1. That the Zoning Agreement under File DASZ 8/2005 dated June 1, 2005 (By-law No. 138/05), be amended in respect of the subject property (Lot 4 Block 3 Plan 44426 WLTO in RL 35/5 St. Charles) to permit the issuance of a building permit without being part of a land assembly and subdivision with adjacent lands.

2. That the City enter into, execute and deliver an agreement to amend the Zoning Agreement in accordance with recommendation 1, and such other agreements as determined necessary by the City Solicitor and Director of Legal Services to implement the intent of the foregoing (the "Ancillary Agreements").

3. That authority be delegated to the Director of Planning, Property and Development to negotiate and approve the terms and conditions of the agreement to amend the Zoning Agreement, and the Ancillary Agreements, in accordance with this report and such other terms and conditions deemed necessary by the City Solicitor and Director of Legal Services to protect the interests of the City.

4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the forgoing.

The Assiniboia Community Committee provided the following supporting reasons for its recommendation:

1. The property in question is the same depth as all other properties on Brittany Drive. It is five feet narrower which is not substantial, I don't believe, in the context of many other properties developed in Charleswood and in fact throughout Winnipeg.

2. It is a lot that is a developable lot, and I believe it is in accordance with many of the OurWininpeg and Complete Communities plans to encourage appropriate infill development. The services are all in place, and so for those reasons I will be, I have supported the application.

Figure 2: Zoning of the Site and Surrounding Area

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- **The applicant has communicated to the City of Winnipeg that they wish to develop the subject vacant property by constructing a new single-family dwelling thereon.**
- **As noted above, an amendment to the Zoning Agreement is needed in order allow a building permit for a single-family dwelling to be issued.**
- **Design drawings for a future single-family dwelling have not been submitted with this application.**

COLLABORATION AND PUBLIC CONSULTATION

- **The applicant made contact with the Urban Planning Division prior to making an application.**
- **The Urban Planning Division advised the applicant that consultation with residents of neighbouring properties should be undertaken. The applicant stated that he intended to drop off letters at Brittany Drive properties, advising residents of his intention to apply to amend the Zoning Agreement, and let them know they may contact him if they have questions or concerns.**
- **The applicant has yet to communicate the results of this maildrop with the Urban Planning Division.**

ANALYSIS AND ISSUES

OURWINNIPEG AND COMPLETE COMMUNITIES DIRECTION STRATEGY

- *OurWinnipeg* is the City's long-range development plan. The Key Direction of *OurWinnipeg* regarding Areas of Stability states:
    - *Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population.*
- The *Complete Communities Direction Strategy* is one of four direction strategies supporting *OurWinnipeg*, the city's long-range development plan, and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg.
- As noted above, the subject property is located in what is classified as an Area of Stability in *Complete Communities'* Urban Structure map. Areas of Stability will accommodate low to moderate density infill development in order to support more efficient use of land, infrastructure and services, as well as enhance housing choice and affordability.
- With regard to this proposal, key policies guiding the development of Areas of Stability include:
    - *In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.*
    - *Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complimentary to the existing scale, character and built form.*
    - *Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.*
    - *Support the subdivision of a parcel of land into two or more lots when it is done in a context sensitive manner.*

ZONING

- **As noted above, the current zoning of the subject property is "R1-L" Residential Single-Family (Large).**
- **The "R1" Residential Single-Family zoning districts are intended to accommodate primarily single-family residential development.**

AMENDMENT TO ZONING AGREEMENT

- As outlined above in the History section of this report, a caveat on the subject property under file no. DASZ 8/2005 prohibits the issuance of a building permit, unless it was included as part of a land assembly and subdivision with adjacent lands (to the north).
- The proposed Zoning Agreement Amendment would permit the issuance of a building permit without any land assembly and subdivision with lands to the north.
- This proposed amendment was circulated to all relevant departments of the Winnipeg Public Service, with no concerns raised.

ANALYSIS OF ZONING AGREEMENT AMENDMENT

Future Planned and Orderly Development

- As noted above, the proposed Zoning Agreement Amendment will enable the development of a single-family residential dwelling on the subject property. The Urban Planning Division is supportive of this amendment.
- The Urban Planning Division believes the intention of the relevant caveat of the Zoning Agreement under file no. DASZ 8/2005 was to ensure that this lot was developed under a future consolidation and extension of Brittany Drive on properties to the north of the subject property. Since 2005, no consolidation has occurred, and the Urban Planning Division is not aware of any proposal for the respective land owners to work together to extend Brittany Drive northward. Given that this has not occurred in more than 15 years, it is not likely that any consolidation and northward extension of Brittany Drive is imminent.
- The Urban Planning Division does not believe the proposed development of a single-family dwelling on the subject property creates additional challenges or limitations on future planned and orderly development of the vacant lands to the north.

Lot Size and Compatibility

- Although the subject property's lot area of 4,591 square feet and lot width of 45 feet is less than any other lot on this block of Brittany Drive, there are several examples of lots that could be considered generally similar. These include:
    - 152 Brittany Drive – Lot area of 5,009 square feet; lot width of 50 feet;
    - 148 Brittany Drive – Lot area of 5,004 square feet; lot width of 50 feet;
    - 137 Brittany Drive – Lot area of 5,191 square feet; lot width of 51 feet;
    - 133 Brittany Drive – Lot area of 5,190 square feet; lot width of 51 feet.
- As such, the proposal will result in a new single-family dwelling constructed on a lot that is compatible with nearby residential properties on Brittany Drive in terms of lot area and lot width.
- It should be noted that the lot size of the subject property is considered unique among existing lots on this block of Brittany Drive, as it is smaller than other existing lots as a result of earlier subdivision. The Urban does not consider the smaller lot size of the subject property to be a new precedent for lot areas and lot widths should subdivision of lands to the north of the subject property occur in the future.

Public Works Department Comments

- As noted above, all relevant departments of the Winnipeg Public Service were circulated on the subject application and did not express any concerns. In particular, the Public Works Department did not note any concerns with permitting one (1) new single-family residential dwelling on this dead-end block of Brittany Drive.

RECOMMENDATION

The Urban Planning Division recommends **approval** for the following reasons:

- The proposal amendment will not limit or create additional challenges on the orderly future development on properties to the north;

- The opportunity to consolidate the subject property with adjacent properties to the north is unlikely to occur in the near future;
- The subject property is considered generally consistent with nearby properties on Brittany Drive containing single-family dwellings;
- The Public Works Department does not have concerns with the addition of a new single-family dwelling on this dead-end street.
