REASON FOR THE REPORT:

The dedication of this property as public street requires a by-law pursuant to Section 139 of the City of Winnipeg Charter.

HISTORY:

The transfer of the lands required for the widening of Ellice Avenue and Balmoral Street was a condition of the approval given by Council for the Servicing Agreement regarding the development of the National Research Council lands on this site in 1985.

While the N.R.C. agreed to convey these lands in 1985, the legal documents necessary to dedicate the land as public street were not provided to the City of Winnipeg until 2001. The widening of the roadway had been constructed some years prior to this.

In 2003, the Public Works Department provided funding for the preparation of the plan of survey defining the street widenings. The City of Winnipeg is now able to register the documents and open these lands as public street.

DISCUSSION:

This report is submitted in accordance with the provisions of By-Law 7325/98, a by-law to allow certain street opening and closing applications to be submitted to the Executive Policy Committee for report to Council without the requirement to be reviewed by a Standing Policy Committee.

The following criteria must be met before the authority given in the by-law may be exercised:

1. The proposed opening and acquisition must have been approved by the Director of Public Works.
2. The proposed opening must have been submitted to all affected City Departments and public utilities with no objections having been received.
3. Any conditions regarding engineering aspects (i.e. relocation of facilities) must have been mutually agreed to.
4. The affected property owner(s) must have agreed to the terms and conditions of the acquisition of the land required for the proposed opening.
5. The terms and conditions of any agreements concerning the proposed opening and acquisition must have been approved by the Director of the department that requested the opening and either the Standing Committee on Fiscal Issues, the Standing Committee on Property and Development, or the Director of the Planning, Property and Development Department, as is appropriate.

All of these criteria have been met.

Financial Impact Statement 11-Mar-04

COMMENTS:

Funding for the preparation and registration of the documents required to effect this street widening has been provided by the Public Works Department. These costs are considered to be immaterial.
