ANALYSIS AND ISSUES

OURWINNIPEG AND THE COMPLETE COMMUNITIES DIRECTION STRATEGY:

- Under the *Complete Communities Direction Strategy*, the proposed development is within the "Areas of Stability – Recent Communities" policy area.
- Key relevant policies guiding development within Areas of Stability include:
    - *Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.*
    - *Support Complete Communities by ensuring a diverse and high-quality housing stock.*
    - *In order to meet the full life-cycle of housing needs within the community, promote a mix of housing type and tenure, such as duplexes, low rise apartments, secondary suites, semi-detached homes, townhouses.*
- The proposed subdivision and rezoning can be considered generally consistent with the above noted policies as it facilitates the continued development of the Prairie Pointe neighbourhood.

WAVERLEY WEST SOUTHWEST NEIGHBOURHOOD AREA STRUCTURE PLAN – AREA 'D'

- The subject site is within the *Waverley West Southwest Neighbourhood Area Structure Plan – Area 'D'* (SP 3/2012), which designates the subject lands as "Residential" under the Land Use Concept Map (Figure 5).
- Key relevant policies under section 5.1.1 (Composition) include the following:
    - *Single-family Residential shall be the predominant land use.*
    - *Multiple-family Residential… shall be permitted in the vicinity of Neighbourhood Nodes and the primary commercial area.*
    - *Multiple-family Residential… shall be permitted adjacent to Waverley Street.*
    - *Multiple-family Residential… shall be permitted adjacent to the Perimeter Highway.*
    - *Where Residential is located adjacent to the Perimeter Highway, other buffering tools such as berming, landscaping and fencing shall be implemented.*
    - *The general categories of uses identified under section 5.1.1 may be refined through the Development Application Process.*
- The proposed subdivision and rezoning application would be generally consistent with the aforementioned polices, as it results in the establishment of residential uses generally in keeping with the plan policies, and in a manner that is compatible with the Prairie Pointe neighbourhood.

COMPATIBILITY WITH THE SURROUNDING AREA:

- The proposed residential neighbourhood development is compatible with the surrounding area as it is consistent with the applicable policies under the *Complete Communities Direction Strategy,* and the *Waverley West Southwest Neighbourhood Area Structure Plan – Area 'D'*.
- The subject application proposes rezoning the site into the following zoning districts:

- "R1-M" Residential Single-Family Medium District:
    - The R1-M district requires: a minimum lot width of 25 feet, a minimum lot area of 3,500 square feet, side yards of 4 feet, a front yard of 15 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 45%.
- "R1-S" Residential Single-Family Small District:
    - The R1-S district requires: a minimum lot width of 25 feet, a minimum lot area of 2,500 square feet, side yards of 3 feet each (or 2 and 4 feet), a front yard of 15 feet, and a rear yard of 25 feet. The maximum building height is 35 feet and the maximum lot coverage is 45%.
- "R2" Residential Two-Family District:
    - The R2 district requires: a minimum lot width of 25 feet, a minimum lot area of 5,000 square feet (2,500 square feet per dwelling unit), side yards of 4 feet, a front yard of 20 feet, and a rear yard of 25 feet. The maximum building height is 35 feet.
- "RMF-S" Residential Multi-Family Small:
    - The RMF-S zone is intended to accommodate the development of multi-family units in neighbourhoods with medium to high residential densities. The dimensional standards for multi-family structures in the RMF-S zone are: a minimum front yard of 20 feet; a minimum rear yard of 25 feet; a minimum side yard of 4 feet and, a maximum building height of 35 feet. The minimum lot area is 9,000 square feet and the minimum lot area per dwelling unit is 1,250 square feet.

- The greatest potentially conflicting land uses involves the two-family residential lands along the southern part of the site, which will be located closest to Brady Landfill.
- The minimum Zone of Concern (Control Zone) buffer for development near Brady Landfill is 90 metres. All of the land included in the subject plan area is located beyond this 90 metre methane gas buffer.
- With respect to the proposed new right-of-ways, the layout of the proposed development includes several new public lanes and new streets that would result in a more interconnected neighbourhood, enhancing connectivity and promoting a more pedestrian friendly public realm.
- Public lanes will result in vehicular access being taken from the rear of residential lots, which allows for more boulevard space to accommodate landscaping, snow storage and on-street parking.
- Therefore, there is unlikely to be any compatibility issues and the proposed development can be considered compatible with the surrounding area.

RECOMMENDATION
The Urban Planning Division recommends **approval** for the following reasons:

- The proposed development is consistent with the *Complete Communities Direction Strategy* and the *Waverley West Southwest Neighbourhood Area Structure Plan – Area 'D'*.
- The subdivision and rezoning, subject to the recommended conditions, complies with policies for Recent Communities under the *Complete Communities Direction Strategy* and would be compatible with the surrounding area.
