RE: Amendments to the Reduced Speed School Zone By-law

On June 25, 2014, Council enacted the Reduced-Speed School Zones By-law No. 76/2014. On July 16, 2014, Council adopted the following resolution with respect to future changes to the reduced-speed school zones set out in the By-law:

> The Director of Legal Services and City Solicitor be authorized to bring forward directly to Council by way of a communication and without the need for review by any Standing Policy Committee or Executive Policy Committee any proposed additions, subtractions or other modifications or changes to the reduced-speed school zones created by the Reduced-Speed School Zones By-law which are made possible by changes to the Reduced-Speed School Zone Regulation, Manitoba Regulation 136/2013 or for other reasons.

Pursuant to this resolution, please find attached a By-law making two amendments to the Reduced-Speed School Zones By-law 76/2014 for consideration and enactment by Council at its next meeting.

For Council's information, the following explanations have been provided by the Department of Public Works concerning the proposed amendments:

- With regard to the changes at Prairie Rose Elementary School, 105 Lucas Avenue: These changes are being made to accommodate an application for a new residential approach.
- With regard changes at Lord Roberts Community School, 665 Beresford Avenue: The changes are required following community traffic study and consultation with school. Changes will better accommodate school operations and student patrols.
- With regard changes at École Van Belleghem, 10 Vermillion Road: This reduced speed school zone is not listed in the most recent published version of the by law. However, there is no history of it being removed and it is listed on the Public Works Department master list of the by law. It is not clear when or why the reduced speed school zone was removed from the published version of the bylaw. All signs are in place.
- With regard changes at Interdivisional Student Services, 1075 Wellington Avenue: This should be removed because Winnipeg School Division (Mile Rendulic, Director of Buildings) has confirmed that this location is primarily a staff resource centre that also offers high school tutoring. The location does not offer Grade 6 or lower programming, and therefore does not meet the Council-approved criteria for installing a reduced speed school zone.
