Dear Councillors,

I would like to add my support for the Standing Policy Committee on Infrastructure Renewal and Public Works – Oct 12, 2021 Reports # 7, 8, and 9. In order for the City of Winnipeg to meet its climate goals and to enhance safety for all citizens, we need your support for AT projects. Our priorities are shown by where our budget dollars are allocated - a great way to show that AT is a priority is to dedicate a specific and measurable amount from the road renewals budget to AT projects.

Sincerely,

Michael Hamm, P.Eng
