EXECUTIVE SUMMARY

The Public Service recommends that the Planning, Property and Development Department Strategic Facilities Master Plan (the "SFMP") be completed and approved by Council prior to rationalizing City-owned and/or third party leased assets.

Based on the progress of the SFMP, it is anticipated that the Public Service will report back on a plan for the rationalization of City owned and/or Leased Building Assets in September 2022.

RECOMMENDATIONS

1. That the Public Service report back on a plan for the rationalization of City-owned and/or third party leased assets in September 2022.

2. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

On March 20, 2020, Council adopted the 2020-2023 Multi-Year Operating and Capital Budget which included the following recommendations:

H. That Council direct the Public Service to report back within 180 days with a plan to rationalize City owned and/or leased building assets including:

i. Administrative buildings that the Public Service considers to be surplus to the needs of the City, with any sale proceeds from these buildings deposited into the Land Operating Reserve;

ii. Buildings leased to third parties that the Public Service considers to be surplus to the needs of the City (including a relocation plan for any non-profit tenants), with a portion of any sale proceeds deposited into the Transformative Fund.

On October 29, 2020, Council granted the Public Service a 60-day extension of time to report back on the rationalization of City-owned and/or third party leased assets.

On December 17, 2020, Council granted an additional 180-day extension to the Public Service to report back on the rationalization of City-owned and/or third party leased assets.

On June 24, 2021, Council granted a further extension of 120 days to the Public Service to report back on the rationalization of City-owned and/or third party leased assets.

IMPLICATIONS OF THE RECOMMENDATIONS

An extension of time for the approval of a plan for the rationalization of City-owned and/or third party leased assets will ensure that rationalization aligns with the Planning, Property and Development Department (Assets and Project Management) Strategic Facilities Master Plan.

HISTORY/DISCUSSION

The City contains numerous properties which are either occupied by civic staff or leased to third party groups. As part of the 2020 City Budget, Council directed the Public Service to review the City's building portfolio and determine what assets could be disposed of (provided that a relocation plan is developed for third party tenants).

It is recommended that prior to rationalizing City-owned and/or third party leased assets, the Public Service complete and request Council approval for the Planning, Property and Development Department Strategic Facilities Master Plan (the "SFMP"). The SFMP is a governance document that will provide a 10-year strategic plan for assets under the jurisdiction of the Planning, Property and Development Department (or the newly created Assets and Project Management Department), providing direction on what assets are recommended to receive priority investments.

Rationalization of City assets is specifically out-of-scope for the SFMP. The SFMP will include a framework to objectively evaluate investment decisions but not specifically identify what assets to sell. Rationalization of City assets will become a separate study after the SFMP is complete and will require its own evaluation procedures.

Based on the progress of the SFMP, it is anticipated that the Public Service will report back on a plan for the rationalization of City owned and/or Leased Building Assets in September 2022.
