REASON FOR THE REPORT

- The applicant is proposing the establishment of a Kennel use on site. The existing Zoning Agreement on the land prevents the aforementioned use. As such, an amendment to the Zoning Agreement is required to proceed.
- A zoning agreement amendment requires a public hearing as per the *Development Procedures By-law* and *The City of Winnipeg Charter.*
- The Report is being submitted for the Committee's consideration of the development application at the Public Hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations of the Urban Planning Division are concurred in, Zoning Agreement Caveat #248142 will be discharged in its entirety and be replaced with a new one.

HISTORY

DASZ 50/1976:

- DASZ 50/1976 rezoned the property for a commercial use.
- The related Zoning Agreement (B/L 696/1974) used Caveat # 248142 to implement conditions related to the subdivision/rezoning. Specifically, clause #6 restricted the site to a poster station letter carrier depot and accessory uses.

  "The land and any building or structure thereon shall not be used for and no building or structure shall be erected, altered or enlarged on the land for any use except a postal station letter carrier depot and accessory uses thereto.

ZAA 4/1996 and ZAA 12/1996:

- Zoning Agreement Amendments under file ZAA 4/1996 and ZAA 12/1996 were placed on the subject property as an amendment to the original zoning agreement placed under file DASZ 50/1996. These two amendments were not registered at the Winnipeg Land Title Office.

  Amended clause #6 listed additional permitted uses on site, uses that require conditional uses application and uses that are accessory.
  A kennel use was not listed in all categories of uses that are either expressly permitted on site, permitted as a conditional use or accessory use.

ANALYSIS AND ISSUES

COMPLETE COMMUNITIES

- Under the *Complete Communities Direction Strategy,* the proposed development is within the Areas of Stability – Recent Communities policy area. Key relevant policies guiding development within Areas of Stability include:
    - *Support a mix of commercial services and employment uses that serve the local community.*

- *Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.*
- *Promote a quality public realm with a high level of accessibility to community services and amenities and opportunities for gathering and social interaction.*

Given that the subject proposal will serve the local community, it is consistent with the aforementioned policies of Complete Communities.

ZONING (BY-LAW 200/2006)

"C2" Commercial Community District

- The Commercial Community (C2) district is intended to accommodate more intensive commercial sites that do not have a local or neighbourhood orientation. The district is intended to include attractive commercial, institutional, recreational, limited residential and service facilities needed to support the surrounding neighbourhoods and the broader community. "C2" districts are generally located in Community and Regional Mixed Use centres or along Community and Regional Mixed-Use Corridors.

Deleting Clause # 6 of Existing Zoning Agreement Caveat 248142 under DASZ 50/1976

- The existing Zoning Agreement contains nine (9) clauses, all of which are no longer relevant to the subject site.

- Specifically, Clause # 4 (which is the subject of this application) only permit a postal station letter carrier depot and accessory uses on site.

- Given that the existing Zoning Agreement is no longer relevant to the subject site, the Urban Planning Division recommends discharging the said Zoning Agreement in its entirety and replacing it as per recommendation 1 above.

COMPATIBILITY WITH THE SURROUNDING NEIGHBOURHOOD

- The subject property falls within the *Areas of Stability* in the *Complete Communities Direction Strategy*. *Areas of Stability* are planned to support a mix of commercial services and employment uses that serve the local community.
- The subject proposal is consistent with the aforementioned policy given that the proposed use (a kennel) will serve the local neighbourhood.
- Aside from the above, it is important to note that the 1976 rezoning and the restriction on the permitted use on site was done under an old Zoning By-law, which has since been replaced with a new one. Under the new Zoning By-law 200/2006, a kennel is permitted use in the "C2" zoning district with a use specific standard.
- There will be no external physical alteration/changes to the existing commercial structure as the applicant is repurposing the existing structure. Submitted plans shows internal alteration of the existing commercial structure to accommodate the proposed kennel.
- The subject proposal (a kennel), will serve the local neighbourhood in this part of the City.
- The Urban Planning Division is supportive of the Zoning Agreement Amendment as it will not cause any adverse effect on adjoining properties.

CONDITIONS OF APPROVAL

- The Urban Planning Division recommends registering a new Zoning Agreement on the title restricting a number of car-oriented commercial uses that are not compatible with the surrounding residential Neighbourhood. The Urban Planning Division also recommends inclusion of a Plan Approval clause allowing the Urban Planning Division and the East Kildonan - Transcona Community Committee to review final plans and design details before development takes place on the property.

REASONS FOR RECOMMENDATION

The Urban Planning Division recommends **approval** for the following reasons:

- The proposed amendment to allow a kennel use on site is consistent with the *Complete Communities Direction Strategy* for Areas of Stability-Recent Community, which supports a mix of commercial and employment uses that serve the local community.
- The subject proposal (a kennel) will provide a necessary service in this area of the City.
- Discharging the existing caveat, which is no longer relevant to the subject commercial site and the placement of new ones that restrict car-oriented/incompatible uses on site will ensure that future uses are compatible with the surrounding context.
- There is nothing to suggest that the subject proposal (a kennel) will have an adverse effect on the surrounding uses.

RECOMMENDATION
