Subject: Agenda **Items 4. and 5**. – **Master Greenspace and Natural Corridors Plan**
Meeting of 10 December 2021

One of the lessons of the pandemic has been the value and health benefits its citizens derive from Winnipeg's forests, green spaces, and natural environment as they coped with confinement. I urge the Executive Policy Committee to approve the $700,000 in the 2022 Budget for the Master Greenspace and Natural Corridor plan. The plan checks all the boxes and, when implemented, will serve the population overtime and onto when Winnipeg reaches 1,000,000 people.
