Message:
Why is it that OURS and other concerned organizations and citizens of Winnipeg must once again lobby to defend and preserve green spaces? It has been proven time and time again that green spaces play an integral part in our wellbeing, as well as playing a role in mitigating climate change We could go on to delineate the many benefits that green spaces provide. But you already know that, don't you?
Now is the time to act.
Winnipeg needs more green spaces and trees if we are to survive as a vibrant city. Will you, as members of EPC, step forward and do the citizens of Winnipeg proud by showing that you are prepared to do your part make Winnipeg a vibrant and climate resistant city. We are counting on you. Don't let us down.
