Address:
City: Winnipeg
Province or territory: Manitoba
Postal code:

Delegation Information
Committee: Council
Committee - other:
Agenda Item: 9

Service Inquiry: Register as a Delegation, Submit Comments in writing Participation preference: Via Zoom Comments in writing: This agenda item is evidence that no one at City Hall reads the documents submitted by the public. It also proves that no one in the very large city bureaucracy knows how to find available information.
Very good standards exist for charging stations for electric vehicles. Dozens of very competent engineers in Winnipeg work in the groups which continually improve these standards.
How does paragraph 3 remain in Agenda item 9? In spite of repeated reminders, EPC still pretends that the FCM is an authority on charge stations. The world outside City Hall recognizes that IEEE is the real authority, while the Canadian Electricity Association is a good local source of information. It is easy to discover that IEEE has an active local Chapter.
