THE CITY OF WINNIPEG
GOLF SERVICES - SPECIAL OPERATING AGENCY

NOTES TO THE PROJECTED FINANCIAL STATEMENTS

For the four years ending December 31, 2025
(all tabular amounts are in thousands of dollars, unless otherwise noted)

1. Status of Golf Services - Special Operating Agency

On February 23, 2000, City Council directed that a Business Plan and Operating Charter for Golf Services - Special Operating Agency (the "Agency") be prepared and further that the municipal golf course operations be realigned under the purview of the Planning, Property and Development Department.

The Agency manages the golf courses operated by The City of Winnipeg and administers the agreements for those courses under lease or contract to other parties. The intent of the Agency is to maximize the annual return to The City of Winnipeg on golf operations and ensure the long-term sustainability of the City's golf course assets.

The Agency commenced operations on January 1, 2002.

2. Significant Accounting Policies

The financial statements have been prepared by management in accordance with Canadian public sector accounting standards. The significant accounting policies are summarized as follows:

a) Basis of accounting

The financial statements are prepared using the accrual basis of accounting. The accrual basis of accounting records revenue as it is earned and measurable. Expenses are recorded as they are incurred and measurable based upon receipt of goods or services and/or the creation of a legal obligation to pay.

b) Deferred revenue

Sales of prepaid passes that have not been redeemed are deferred and recognized as revenue in the year in which the rounds are played.

c) Employee benefit plan

The Winnipeg Civic Employees' Benefits Program is a multi-employer contributory defined benefit program and accordingly contributions are expensed as incurred. The costs of other retirement benefits have been accounted for based on actuarially determined amounts using the projected benefits method prorated on services and management's best estimate of retirement ages of employees, salary escalation and plan investment performance. Actuarial gains and losses are amortized on a straight-line basis over the average remaining service period. The liabilities are discounted using current interest rates on long-term bonds.

d) Non-financial assets

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations. The change in non-financial assets during the year, together with the deficiency of revenues over expenses, provides the change in financial liabilities for the year.

2. Significant Accounting Policies (continued)

i) Tangible capital assets

Land and buildings are stated at assessed values as of January 1, 2002, which were determined by The City of Winnipeg Assessment and Taxation Department. All golf course improvements incurred up to January 1, 2002 are assumed to be fully amortized. Equipment on hand as at January 1, 2002 is recorded at its estimated net realizable value on that date. Subsequent acquisitions are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost, less residual value, of tangible capital assets is amortized on a straight-line basis over their estimated useful lives as follows:

Building	25 years
Equipment	5 to 10 years
Golf course improvements	20 years

ii) Inventories

Inventories held for consumption are recorded at the lower of cost and net realizable value.

e) Revenue recognition

Green fees and equipment rentals income are recognized when the services are provided. Sale of goods are recorded when the customer receives the product. Income from prepaid cards is recognized in the year in which the rounds are played.

f) Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions on such areas as employee benefits, and the useful life of tangible capital assets. These estimates and assumptions are based on the Agency's best information and judgment and may differ significantly from actual results.
