REPORT SUMMARY

Key Issues:

These rights of way, together with the adjacent City-owned lands, constitute part of a settlement for damages claimed by the Novamet Development Corporation. The conveyance of these lands was approved by Council in April of 2002.
Novamet has recently made an application to subdivide and rezone the adjacent land (DASZ 5/2004) and requires the streets and lane for incorporation into the subdivision.

REASON FOR THE REPORT:

The closing of public rights of way requires the consideration of the Community Committee.

HISTORY:

The subject streets and lane were created in 1907. Foley Avenue and Gibbs Street exist as gravel/dirt roads. The lane has never been constructed. There is no apparent public use of these rights of way.

In April of 2002, Council approved the transfer of portions of the streets and lane identified as "Proposed Closings" on the attached Misc. Plan No. 12200 to the Novamet Development Corporation. These rights of way, together with the adjacent City-owned lands, constitute part of a settlement for damages claimed by Novamet regarding the City's refusal to allow a development to proceed in the Charleswood area in the 1980's.

This application is being submitted in conjunction with DASZ 5/2004, an application by the Novamet Development Corporation to subdivide and rezone the adjacent land. The streets and lane are to be incorporated into the subdivision.

DISCUSSION:

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the closing.

Easements

The Water and Waste Department has identified the existence of a wastewater sewer line within the portion of Foley Avenue to be closed. There is a question as to whether or not the sewer line is still active. Water and Waste advises that the future disposition of the sewer line can be determined by Novamet through the approval process for DASZ 5/2004 and the subsequent underground structure construction drawing approval process. If the disposition of the sewer line has not been addressed prior to the transfer of the land to Novamet, an easement will be required.

Manitoba Hydro and Centra Gas have also identified requirements for easements to maintain their existing plants in the area.

Transfer of Jurisdiction Over Public Rights-of-Way

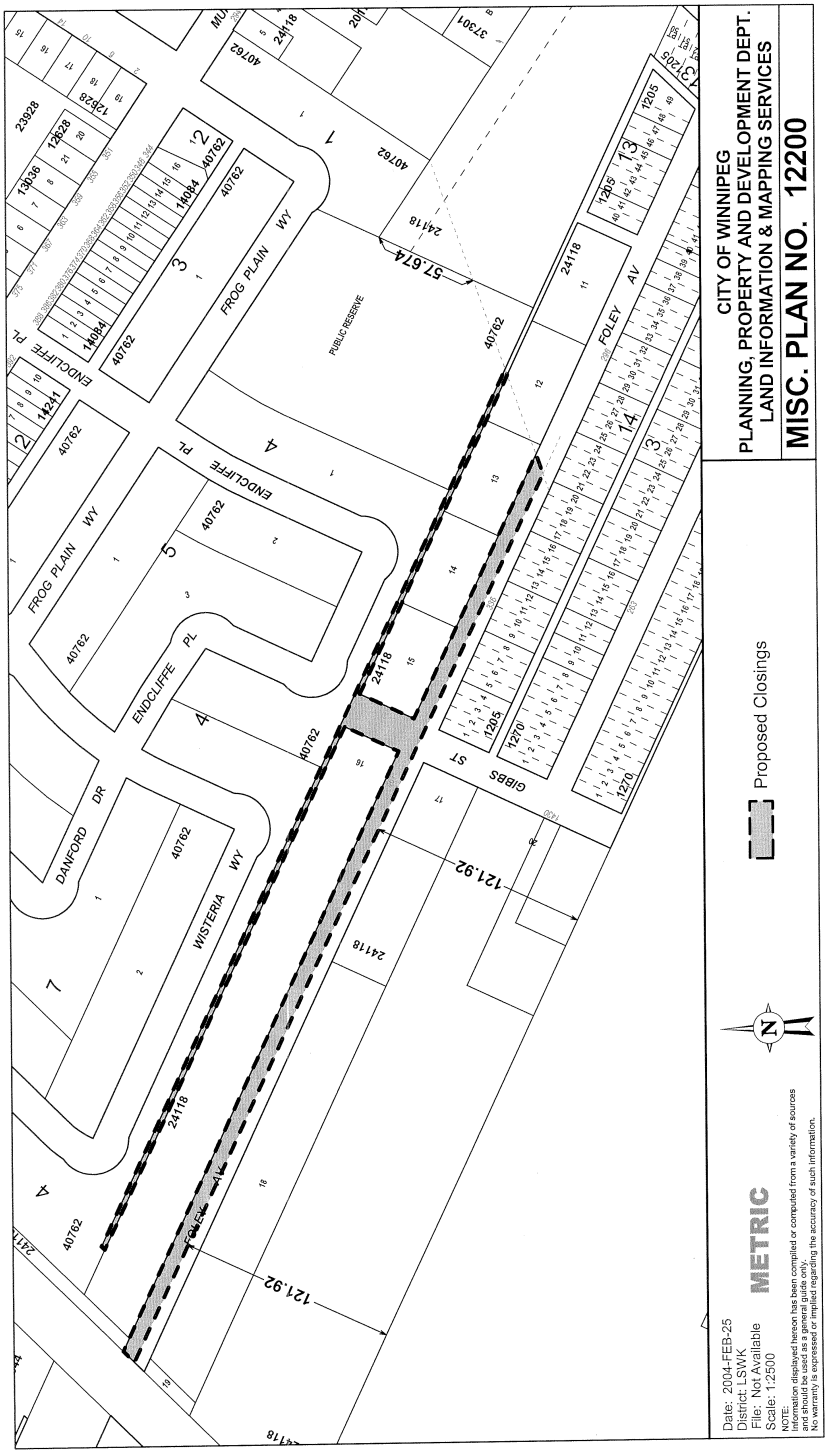

The streets and lane must be legally closed before they may be sold. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
