Committee - council: Opposed to the recommendations

Committee - other: N/A

Agenda item (number and title): IRPW #5 low mounted amber lights

Service inquiry: Register as a Delegation, Submit Comments in writing

Participation preference: Via Zoom

Comments in writing: There is no engineering study, appended to of this matter. Why not? Neither elected officials nor rank amateurs should be designing infrastructure that is this critical to citizen safety. City Hall's response to this topic should have begun with a look at what other cities do, summarized by a report by a traffic engineering professional. Until it can be done right, this matter should be dropped from your Agenda.
