Note: The wording in bold and italics denotes amendments made by the Community Committee.

The East Kildonan-Transcona Community Committee provided the following supporting reasons for its recommendation:

1. This is done in good will with the community and has been for decades, literally approaching generations here. Judging from the history of tangible goodwill not just with the community but literally the neighbours to the south. Also, given their letters of support working with the neighbourhood to make this work and with these recommendations in terms on how to best optimize the variance. I think this is fair and good.

8. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

9. That Caveat 1097258 be discharged.

10. That the variance order under File DAV 21-233416D shall come into force and effect upon the coming into force and effect of the zoning by-law for the subject land under File DAZ 214/2021.

REASONS FOR REPORT

This report is required because a rezoning application is subject to a public hearing.

IMPLICATIONS OF THE RECOMMENDATIONS

The proposal can proceed if the recommendations of the Urban Planning and Design Division are concurred in.

HISTORY

The east half of the subject site was rezoned to “C2” Commercial District under File DAZ 285/1986. At that time the west half of the site was zoned “R1” Single-Family, had the address of 894 McLeod Avenue and contained a single-family dwelling.

On December 23, 2020, a permit was issued to allowed the single-family dwelling to be demolished. The demolition and removal have been completed.

On October 13, 2021, the Director of Planning, Property and Development approved an application (File DAV 21-208286C) to vary the “R1-M” Residential Single-Family (Medium) requirements, to permit an accessory parking area to be 3.5 feet from the northern site limit.

CONSULTATION

Land Development Branch

OURWINNIPEG POLICY ALIGNMENT

The Key Direction that applies to the Recent Communities policy area is in the Areas of Stability sections of *OurWinnipeg* and *Complete Communities*. It states: “Enhance the quality, diversity,

completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population."

If the proposed rezoning is approved subject to the recommended zoning agreement it would align with this Key Direction and with *Ourwinnipeg* in general.

WINNIPEG CLIMATE ACTION PLAN ALIGNMENT

The *Winnipeg Climate Action Plan* states the following:

> *Strategic opportunity #4 – facilitate compact, complete development and increase density;* and
>
> *Increase strategic infill development that provides access to and capitalizes on existing and planned corridors with frequent transit service.*

The proposed rezoning aligns with the Climate Action Plan because the rezoning would facilitate a development that would increase density and be next to three public transit routes.

POVERTY REDUCTION STRATEGY

SITE DESCRIPTION

The subject site, identified on Figures 1 and 2:

- Is 110 feet west of London Street, on the south side of McLeod Avenue;
- Is in the Valley Gardens Neighbourhood and the Elmwood East-Kildonan Ward;

- Is 49,453 square feet;
- Contains a 5,048 square foot, one-storey, place-of-worship, which is more than 20 feet from the southern site limit, and an accessory parking area,
- Contains no trees or shrubs,
- Is encompassed by opaque fences along the southern and eastern limits, a chain link fence and an ornamental fence along the western limit and an ornamental fence along the northern limit,
- Is partly zoned “C2” Commercial Community and partly zoned “R1-M” Residential Single-Family (Medium) (as shown on Figure 2);
- Is in a Recent Communities policy area of *OurWinnipeg* and *Complete Communities*; and
- Is subject to a zoning agreement
  - That is registered as a caveat on the property, as per DAZ 285/1986,
  - That only applies to the portion of the site zoned “C2,”
  - That prohibits certain uses,
  - That limits buildings to one storey and
  - That requires any proposed development to be developed in accordance with plans approved by the Director of Planning, Property and Development and the East Kildonan Transcona Community Committee.

SURROUNDING LAND USE AND ZONING

Developments near the site are shown on Figure 1 and existing zoning districts are shown on Figure 2.

North: McLeod Avenue then commercial uses zoned “C2” Commercial Community.

South: Single-family dwellings zoned “R1-M” Residential Single-Family (Medium).

East: Single-family dwellings zoned “R1-M” Residential Single-Family (Medium).

West: A commercial use zoned “C2.”

Also of note are:

- McLeod Avenue is a collector road and three public transit routes are on McLeod Avenue in front of the site; and
- A Manitoba Hydro corridor is 62 feet west of the site.

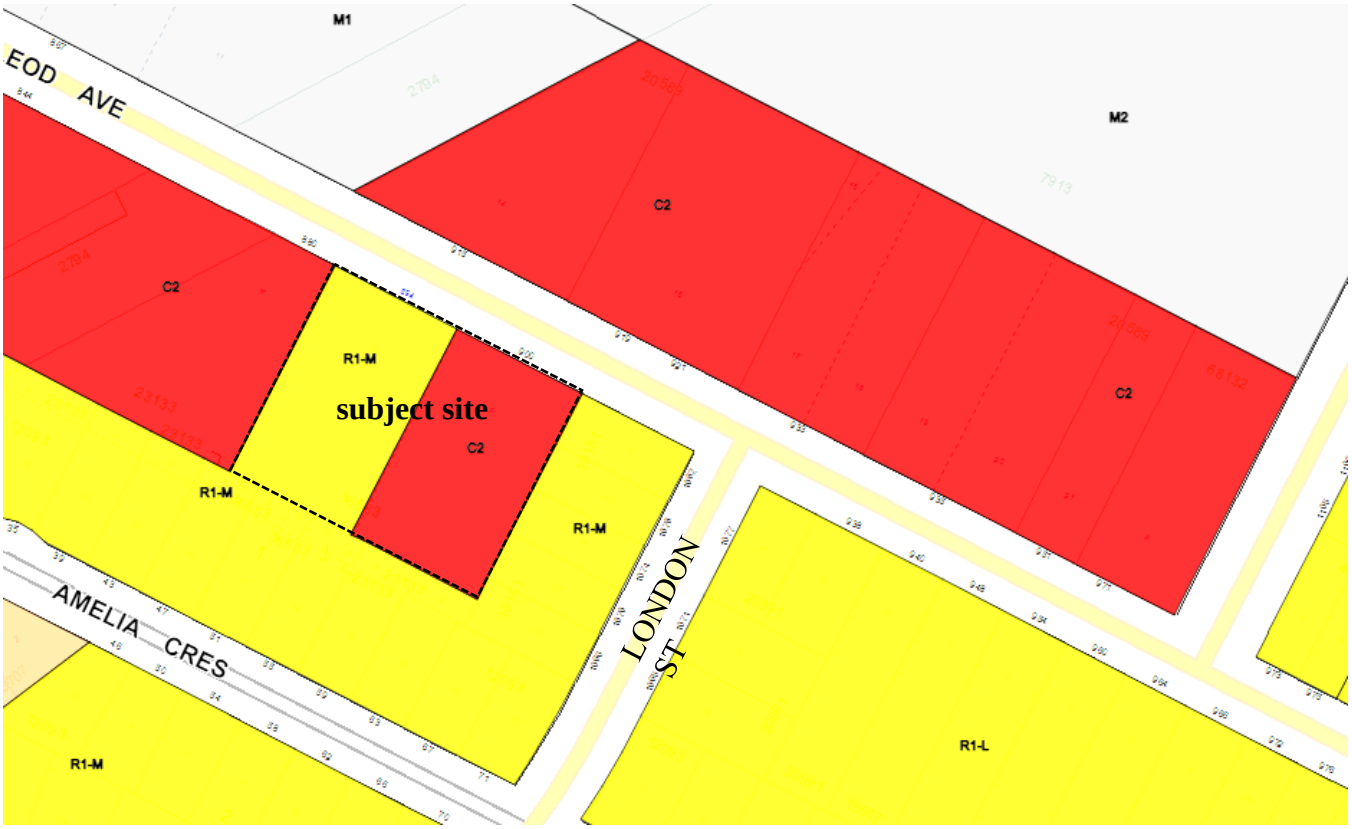

Figure 2: Existing Zoning **North↑**

DESCRIPTION OF THE PROPOSED DEVELOPMENT

The proposal includes:

- Constructing a 9,056 square foot one-storey addition to the existing place of worship, which would be five feet from the southern site limit and two feet from the western site limit;
- Reconstructing the parking area into 74 parking spaces and a walkway from McLeod to the parking aisle closest to the proposed addition; and
- Planting trees and shrubs on the site:
  - South of the existing building,
  - Along the eastern site limit,
  - Along the western site limit and north of the proposed addition,
  - In the parking area,
  - Along the northern site limit and
  - In front of the existing building and the proposed addition.

The proposed addition would have a shed roof. The addition would be approximately 21.5' in height along its southern edge and 27 feet along its northern edge. These heights are consistent with a portion of the existing building.

The proponents also intend on providing people going to the subject site with a parking area containing 50 parking spaces, to be located in the Manitoba Hydro corridor that is west of 880 McLeod. (Manitoba Hydro has given permission for this facility to be established and used accordingly.)

In order to accommodate the proposed development, the application that is the subject of this report and a variance application have to be approved.

The variance application pertaining to the subject site is DAV 21-233416D. This application is needed because:

- The proposed addition would be five feet from the southern site limit instead of 25 feet;
- The accessory parking area would be 5.25 feet from the northern site limit instead of 10 feet; and
- 74 parking spaces would be provided on the site instead of the required number (which was 165 parking spaces but later reduced to 93 due to additional information provided by the applicant).

The administrative report on DAV 21-233416D has been submitted. It recommends approval as modified.

COLLABORATIVE PLANNING

The Urban Planning and Design Division recommended to the proponent to increase the rear (south) yard setback of the proposed addition to at least 20 feet and to show that this area would be well landscaped. However, the applicant chose to proceed with the current plan.

ANALYSIS AND ISSUES

OURWINNIPEG AND COMPLETE COMMUNIITIES

OurWinnipeg is the City's development plan and *Complete Communities* is a "Direction Strategy" of *OurWinnipeg* that provides additional directions and policies on land use and development in the city.

The Key Direction that applies to the Recent Communities policy area is in the Areas of Stability sections of *OurWinnipeg* and *Complete Communities*. It states: "*Enhance the quality, diversity, completeness and sustainability of stable neighbourhoods and expand housing options for Winnipeg's changing population.*"

The following policies, under Direction 1 of Section 04 (Areas of Stability) of *Complete Communities*, also apply to the Recent Communities policy area:

- *Support low to moderate change in low-density neighbourhoods through development and redevelopment that is complementary to the existing scale, character and built form.*
- *Promote the form of buildings and spaces that are sensitive to the community context and address the transition between new and existing developments.*
- *Encourage intensification to occur at centres and along corridors.*

As previously stated, the proposed one-storey addition would be approximately 21.5 feet in height along its southern edge and five feet from the rear yards of single-family dwellings that are abutting this portion of the site.

Therefore, the proposed development would only comply with the aforementioned Key Direction and policies if the proposed addition is setback from the southern site limit by at least 20 feet and several trees are established in this setback area. These modifications are addressed in the report on the associated variance application – DAV 21-233416D.

The proposed rezoning to "C2" Commercial Community would comply with the aforementioned Key Direction and policies if the existing zoning agreement (which only applies to half the site) is replaced by the recommended zoning agreement which would:

- Require plan approval,
- Limit building height to 35 feet, which is the height limit in the "R1" Districts, and
- Change some of the permitted principal uses to conditional uses and some of the permitted or conditional principal uses to not-permitted, because
  - Conditional uses can be approved subject to additional conditions to ensure their compatibility with the area in which the site is located, and
  - Non-permitted uses are uses that should not be abutting residential uses because they are generally not compatibly with residential uses.

REASONS FOR THE RECOMMENDATIONS

The Urban Planning and Design Division is recommending approval subject to standard conditions of approval and subject to the existing zoning agreement being replaced by a new zoning agreement that applies to the entire site because the recommended zoning agreement would ensure that the rezoning to “C2” Commercial Community would comply with *OurWinnipeg* and *Complete Communities.*
