Report – Standing Policy Committee on Infrastructure Renewal and Public Works – June 9, 2022

DECISION MAKING HISTORY (continued):

COMMUNITY COMMITTEE RECOMMENDATION:

On May 25, 2022, the East Kildonan-Transcona Community Committee passed the following motion:

WHEREAS the City of Winnipeg continues to work collaboratively with community support partners to address problematic bus shelter situations;

AND WHEREAS the situation involving the enclosed transit shelters on Regent Avenue between Stapon to the west and Rougeau to the East has continued for more that 2 years without a permanent resolution;

AND WHEREAS the persons utilizing the Transit Shelters are generally connected to a community support partner that is not the primary support partner for areas east of the Red River which has created a situation that is not attainable for positive relations for the community as a whole;

AND WHEREAS the activities that the community observes regularly in the transit shelters are not seen as for the common good and welfare for those undertaking the behaviours. It is believed that the removal of the two shelters along the Regent Avenue Corridor be undertaken to support a potentially better outcome and seeking supports for those in this position;

THEREFORE BE IT RESOLVED that the Standing Policy Committee on Infrastructure Renewal and Public Works be requested to direct the Winnipeg Public Service to report back within 30 days on the following:

1. Removal of all glass walls, doors, seating & electrical units from the 2 Westbound bus stops on Regent Avenue directly in front of Kildonan Place Mall.

2. Confirm that all contractual obligations that the City of Winnipeg has entered into with good and faithful operation of the Transit Loop contained with the boundaries of the Kildonan Place Mall are being adhered to by the City of Winnipeg.
