Honorable Mayor, City council members and city executives

What we are asking for is fairness, transparency and common sense in addressing the Short Term Rentals.

After speaking with the Competition Bureau Of Canada we ask that

The Standing Committee Recommendations to be CHANGED

- That #3. C. that the wording be changed from Toronto to all or even to include Regina for it to be transparent
- That #3. E. that the wording be changed from Toronto to all or even to include Regina for it to be transparent
- That the survey be re-administered to remove the anti-short term rental bias

I am asking for the definition of SHORT TERM RENTALS

What is the difference between:

- Hostels
- Rooming house
- Transition houses
- Hotels
- Bed and Breakfast

Currently all this are allowed in the area of our Short Term Rentals

We as Short Term Rental industry are asking for rule and regulations, we fully expect to be taxed. We currently pay GST and PST.

Our guest are big participants in the local community, Osborne Village and Corydon Village and south Osborne. We should ask the local restaurants on a Monday night when no locals are in the establishment. Ask them what they think of Short Term Rentals.

Some of the rule and regulations being put forward are excessive and quite frankly crippling. I am a small business owner and this isn't just a job but my lively hood. Not just for me but my 4 employees who look to me for a paycheck every week.

Will our Short Term Rentals be Grandfathered as they were treated as legal for several years by all levels of government

We are a viable industry and contributor to the local economy. To destroy an industry through regulation to me seems just insane and short sighted.
