Scope of work

The plumbing work that was discussed at 365 McGee can be done for $2299.20 plus taxes. This includes the rough in of the drainage, venting, and water lines for a new washing machine in the basement.

Price is good for 30 days.
Payment will be due upon completion.
Payment can be made by cash, cheque, interac transfer, visa, or mastercard.
Price includes the plumbing permit required.

*notice will need to be given to shut down water and rainage during tie in to water lines and stack.

If you are happy with the price, let us know and we can schedule the work.
Thanks
Tyler

JOB
Washer/dryer

ACTIVITY	QTY	RATE	AMOUNT	TAX
Dryer plug	1	400.00	400.00	S
Washer	1	250.00	250.00	S
Exhaust Fan Supply 120v to an auxiliary fan supplied by others ** this price only includes 120v; if automation is required from us there will be additional costs.	1	175.00	175.00	S
Notes - as discussed on site there are two lines run to the washer dryer area. We would need to spend 30 min following those wires and seeing if they go to the panel in the electrical room and what breakers would need to be supplied to rework them for the washer and dryer but if they do what we think they do then instead of the washer and dryer price above we would just charge a time and material price plus the additional fan hook up. Depending on parts required I would estimate $350 if those wires can be reused and we just need breakers and outlets.	1	0.00	0.00	S
