13. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

The East Kildonan-Transcona Community Committee provided the following supporting reasons for its recommendation:

1. The public service provided a positive report on this. This is what we've seen time and again in the area that aligns with city policy.

2. Change in this area is difficult and we know it is difficult. We are well past the point of un ringing that bell and its difficult. This is a reasonable use of that land with eight (8) units, not 16. There is no opportunity for secondary suites. I will close with my matter with regards to that corner. We know there is a challenge. We know the solution and the public service is working towards that.

SITE DESCRIPTION

- The subject site consists of two lots located on the south side of Ravelston Avenue West between Fiorentino Street and Peguis Street in the Peguis neighbourhood of the Transcona ward.
- The subject properties are currently zoned “R1-L” Residential Single-Family – Large District.
- The subject properties are located in an “Established Neighbourhood – Recent Community” policy area as designated in *Complete Communities 2.0*, and in a “Proposed Residential Mixed Use” policy area as designated in the *Transcona West Area Structure Plan*.
- Each subject property is 100 feet in width and 110 feet in length. The combined assessed area is 21,976 square feet.
- Both lots are currently vacant.
- The subject sites are located within 400 meters of the Primary Transit Network – Long-Term Network Plan.

Figure 1: Subject site and surrounding area (flown 2021).

SURROUNDING LAND USE AND ZONING (See Figure 2)

The subject area is characterized by a mix of single family and two-family residential uses.

North: Ravelston Avenue West, then a single-family dwelling and a greenhouse split-zoned "R1-L" Residential Single-Family – Large and "RR5" Rural Residential – 5.

South: Single-family dwellings zoned "R1-M" Residential Single-Family – Medium.

East: Single-family dwellings zoned "R1-M" Residential Single-Family – Medium.

West: Single-family dwellings zoned "R1-M" Residential Single-Family – Medium.

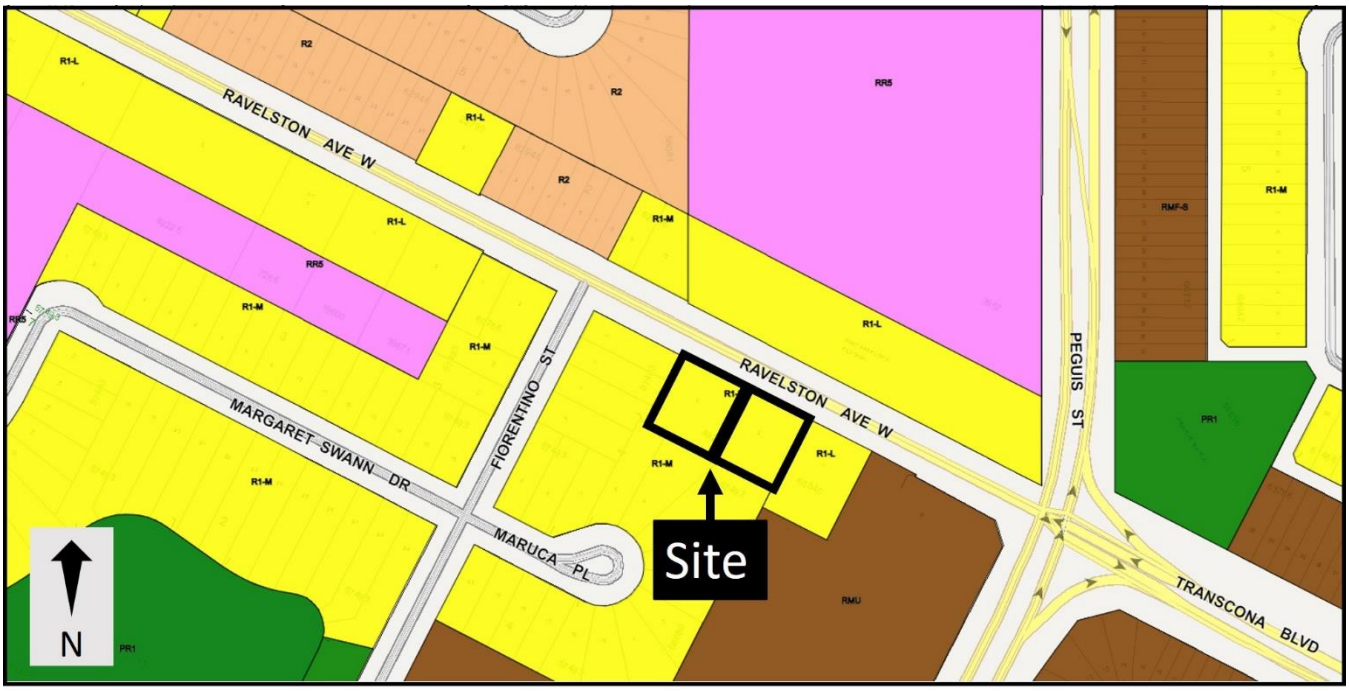

Figure 2: Zoning of the site and surrounding area.

DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant wishes to subdivide the existing two (2) lots into eight (8) lots and rezone all of the lots to "R2" Residential – Two-Family district for the purpose of constructing four two-family dwellings.
- Each lot is proposed to be 25 feet wide and 106.91 feet deep.
- Each dwelling unit would include one (1) attached garage fronting onto Ravelston Avenue West.
- There are no submitted elevations.

REASON FOR APPLICATION

- The subject properties are currently zoned “R1-L” Residential Single-Family – Large District. The “R1-L” district does not permit the establishment of a two (2) family residential use.
- The applicant wishes to subdivide and rezone the existing two properties into eight (8) separate lots and develop four two-family residential buildings on the newly created lots.
- In order to subdivide and rezone the lots to accommodate this higher density development, a subdivision and rezoning application is required.
- The “R2” Residential Two-Family district enables a maximum density of one (1) residential unit per 2500 square feet of site area for two-family developments.
- Given the assessed land area of each lot after subdivision would be 5345 square feet, the proposed two (2) family residential use would result in a compliant density.
- Additional variances for the lot area and lot width are required by the Special Boundary Conditions. Please see the corresponding planners report for file DAV 22-135449/D.

ANALYSIS AND ISSUES

OURWINNIPEG

OurWinnipeg is the City of Winnipeg’s long-range development plan. Applicable Policies for Recent Communities include the following:

6.1 Sustainable Urban Growth

- The City must accommodate physical development that reflects this Plan’s goals, and achieves a continuum of complete and connected communities over the lifecycle of the Plan.

6.6 Intensification Target

- Achieve the intensification target by making development in intensification target areas easier and more desirable and predictable, as directed by *Complete Communities*.

6.16 Established Neighbourhoods

- Designate Established Neighbourhoods within the Urban Structure, representing lands that will accommodate additional growth in a context-sensitive manner, while promoting the efficient use of land, cost-effective municipal servicing, enhanced housing choice and affordability, and conservation of green infrastructure and heritage resources and districts, as defined in *Complete Communities*.

The proposed plan of subdivision and rezoning application **does align** with *OurWinnipeg* because the design of the site and proposed use are context-sensitive development to the neighbourhood they are proposed for, in that there are multiple two-family dwellings on 25 foot lots on the north side of Ravelston Avenue West..

COMPLETE COMMUNITIES DIRECTION STRATEGY 2.0

- The *Complete Communities Direction* Strategy 2.0 (*CCDS 2.0*) is one of four direction strategies supporting *OurWinnipeg*, the city's long-range development plan, and has statutory authority as a secondary plan. The strategy guides land use and development in Winnipeg.
- The subject site is located in an "Established Neighbourhood – Recent Communities" policy area of *CCDS 2.0*. Certain goals and policies of CCDS 2.0 apply to the proposal.
- Goal 1 - *Encourage compatible residential development within Established Neighbourhoods to build more Complete Communities and align with the City's residential intensification target.*
    - *1.1 Encourage residential development that positively contributes to neighbourhood character while expanding housing options for residents in a manner that is sensitive and complementary to existing development.*
    - *1.3 Support the subdivision or the consolidation of land when it is done in a context-sensitive manner.*
    - *1.5 Support up to mid-rise residential development in Established Neighbourhoods that is compatible with neighbourhood context.*
    - *1.16 Small-scale residential uses, not including single-family, may be accommodated on collector roads and local streets with a public lane, where compatible with adjacent land uses, and in consideration of the factors listed in Policy section 1.6.*
- Goal 2 - *Design new development in Established Neighbourhoods to a high standard of urban design and construction to ensure new development adds value to public and private urban spaces to create a sense of place and civic pride..*
    - *2.12 New development should respect and complement the existing character of the built form of surrounding properties.*
    - *2.21 Site design should take cues from the character of the neighbourhood or street and should mitigate the potential for land use conflict with adjacent properties that have different scales, densities and uses. Parking location (motor vehicle and bicycle), vehicular access, servicing elements, building placement and landscaping treatment will be important design elements to ensure context-sensitive design.*
- Goal 3 - *Ensure all communities provide a diversity of housing options and meet resident life-cycle housing needs.*
    - *Encourage a variety of housing types and tenures within Established Neighbourhoods to meet life-cycle housing needs and affordability ranges.*

The plan of subdivision and rezoning application and the associated development proposal **comply** with the above policies for the following reasons:

- The proposed subdivision and rezoning would enable two-family dwellings to be built in a neighbourhood that has single-family dwellings, two-family dwellings, and multi-family dwellings, thereby expanding housing options for residents in a manner that is complimentary to existing development.

- The proposal is compatible with the neighbourhood context in that the north side of Ravelston Avenue West is characterized by multiple two-family dwellings where each dwelling unit occupies a 25 foot wide lot.
- The proposal would create lots that are the same width and a similar area as the multiple lots already existing on the north side of Ravelston Avenue West.

TRANSCONA WEST AREA STRUCTURE PLAN

- The subject site falls within the Almey-Ravelston Special Planning area of the *Transcona West Area Structure Plan*. The site is designated Residential Mixed Use. Certain policies from the *Transcona West Area Structure Plan* apply to the proposal:
- Section 5.4.2 states: “a significant use of land within Residential Mixed-Use Areas will incorporate low, medium and higher density residential uses.”
- The proposed “R2” Residential Two-Family lots are consistent with the Transcona West Plan.

Based on these considerations, the Urban Planning Division **is supportive** of the application.

ZONING BY-LAW 200/2006

CURRENT ZONING:

“R1-L” Residential Single-Family – Large

Currently, the subject site is zoned “R1-L” Residential Single-Family – Large. The Residential Single-Family (R1) district is intended to accommodate primarily single-family residential development in lower-density areas. The dimensional standards in the “R1-L” Zone are:

- A minimum lot area of 5500 square feet
- A minimum front yard of 20 feet
- A minimum rear yard of 25 feet
- A minimum side yard of 4 feet
- A maximum building height of 35 feet.

Under the current zoning on the existing lot, a total of one (1) dwelling units would be permitted on each subject property.

PROPOSED ZONING:

“R2” Residential – Two-Family

The applicant is proposing to rezone the subject property to “R2” Residential Two-Family. The Residential Two-Family (R2) district is intended to accommodate the development of single and two-family units and where appropriate limited multi-family units in lower-density areas. The dimensional standards in the “R2” zone are:

- A minimum lot area of 5000 square feet
- A minimum lot area per dwelling unit of 800 square feet
- A minimum front yard of 20 feet

- A minimum rear yard of 25 feet;
- A minimum side yard of 4 feet
- A maximum building height of 35 feet.

- The “R2” Residential Two-Family district is intended to accommodate the development of single and two-family units and where appropriate limited multi-family units in lower-density areas.

SPECIAL BOUNDARY CONDITIONS

- The Special Boundary Conditions are the average lot area and average lot width of existing lots abutting or near the subject site
- The proposed development seeks to subdivide two (2) existing lots into a total of eight (8) new lots that would each be 25 feet wide and 106.91 feet deep. The resulting lot area for each lot would be approximately 2672.75 square feet, which is compliant with the dimensional standards of the “R2” Zoning District. However, due to the location of the lot, the lot is subject to the Special Boundary Conditions of Zoning By-law No. 200/2006, which specify a minimum lot width of 54 feet (16.46 metres) and a minimum lot area of 8031 square feet (746.1 square metres) in this instance.
- The Special Boundary Conditions are the subject of the variance application, which recommends approval.

ADDITIONAL CONSIDERATIONS

Parking

- The Zoning By-Law requires a minimum of two spaces for two-family dwellings.
- No parking variances are being sought by the applicant

Site Servicing

- The Administrative Coordinating Group (ACG) report associated with this file specifies cost sharing requirements.

CONDITIONS OF APPROVAL

- The Urban Planning & Design Division is recommending that final plans be submitted to the Director of Planning, Property and Development and the East Kildonan – Transcona Community Committee for review prior to the issuance of a development permit on the lot. The inclusion of this clause will allow the Urban Planning & Design Division and the East Kildonan – Transcona Community Committee to review final plans and design details before any future development takes place on the site.

SUMMARY

The Urban Planning Division recommends **Approval** for the following reasons:

- The subdivision and rezoning will result in the establishment of a two-family residential development that is consistent with policies in *OurWinnipeg 2045, Complete Communities 2.0,* the *Transcona West Area Structure Plan,* and the area context.
- The proposed development will increase residential density in the Peguis neighbourhood, thereby increasing housing options for the area.

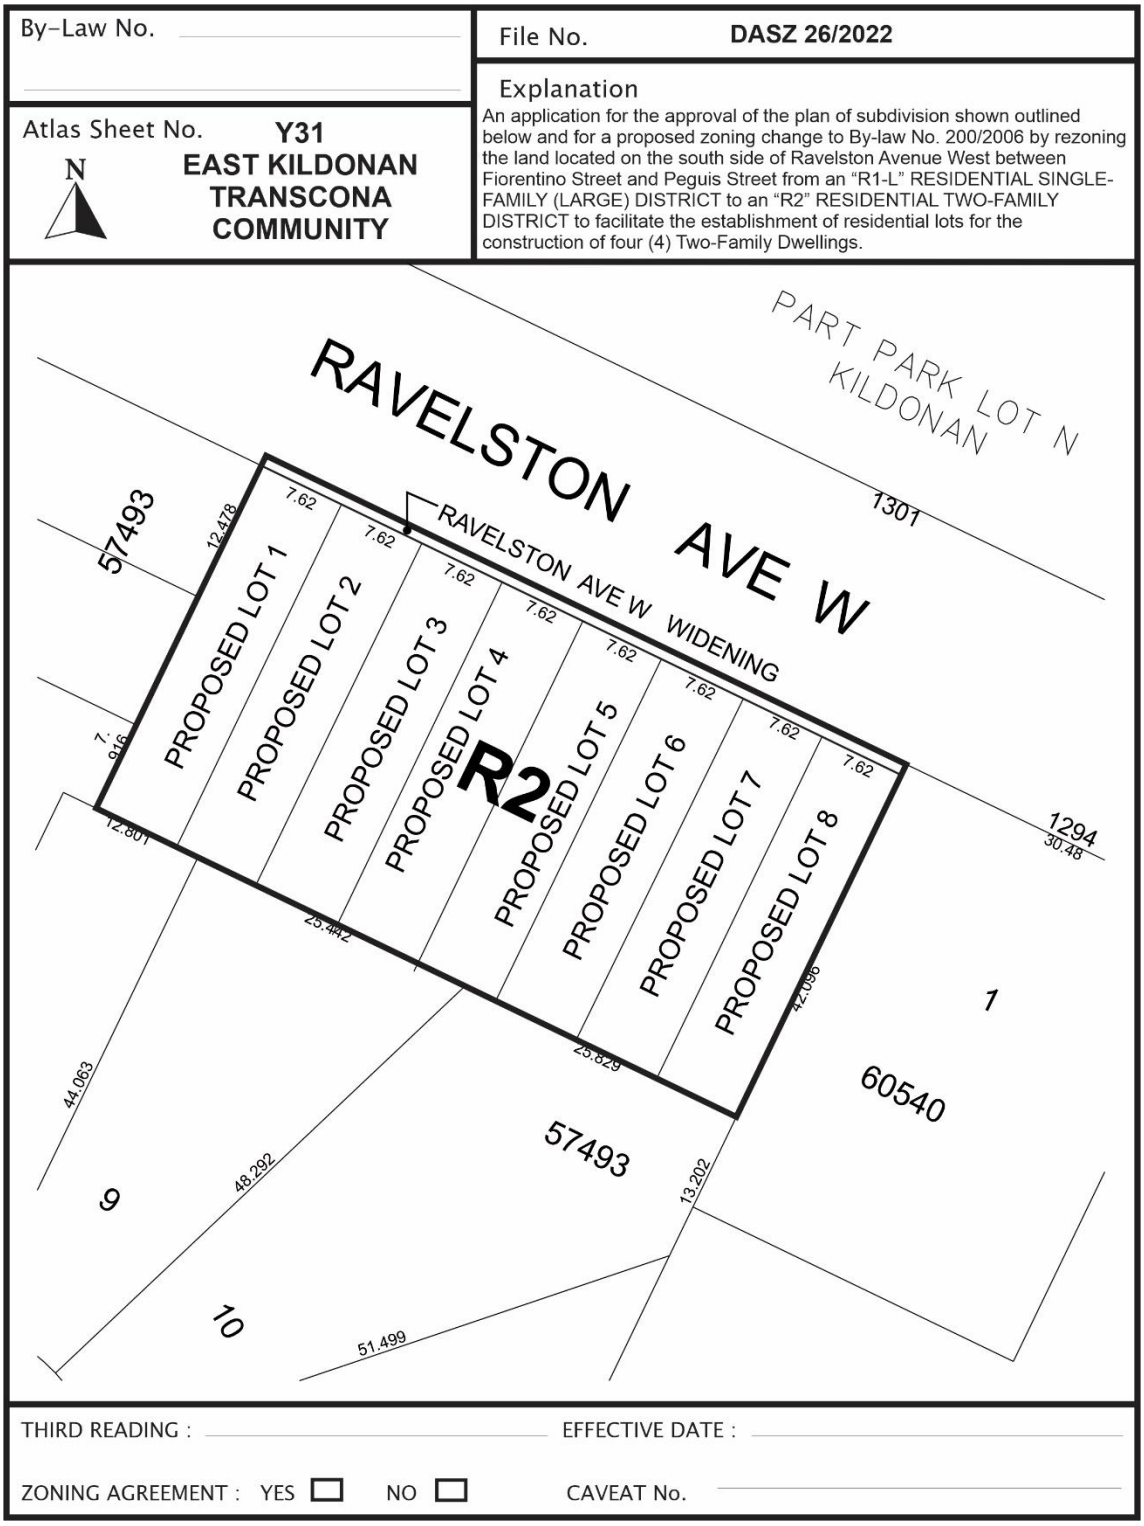

RECOMMENDATION

The Urban Planning Division recommends this application be **approved** and the subject properties be subdivided into eight (8) lots and that the lots be rezoned into the “R2” Residential Two-Family district.
