The truly generous give from their own purse. Taking money from those who have little, to give to others, is much less honorable. That is what you are doing here.
There is no mention in this item of the facts. More than $150 billion has been sent already to aid Ukraine. Those running the country are extremely wealthy. The European Union is very wary of them. The folks who escape from them, to live in Manitoba, are much more deserving of aid, than are the rich and powerful in their former country.
As has been said here before, donations from Winnipeggers are better spent helping our new residents. They are not billionaires.
Please change the wording of this item, to direct city money solely to Ukrainians in need, who live outside Ukraine. Our money will be wasted if you do not.
