Delegation information
Committee: Executive Policy Committee
Committee - council: N/A
Committee - other: N/A
Agenda item (number and title): Amoowigamig Public Toilet

Service inquiry: Submit Comments in writing
Participation preference: N/A
Comments in writing: I'm writing this in support of the city increasing its funding to the Amoowigamig public toilet. This project has demonstrated significant success on many fronts, including reduction of public urination/defecation, reduction of used needles in public places, reduction of health care costs, lives saved, and dignity restored. This project is exactly the kind of thing I want my tax dollars to support. I'm at a loss as to why the city is considering reducing the hours of this facility when the logical next step would be to increase funding to maximize its return on investment by increasing its hours of operation. Please make the right decision.
