Comments in writing: As a resident of the seemingly long-forgotten Charleswood rural area that remains unserviced with water or waste from the City, I am perplexed why the recently announced City of Winnipeg budget contains a reference to a proposed repealing of the By-law 7075/97 (Unserviced Residential Premises Tax Credit). If I understand the Bylaw correctly, it is in place to offset the burden of having no water or sewer service extended to those residents so affected. If the Bylaw is in fact repealed, when will the city begin installing water and sewer lines to us? I await your answer on this.
Sincerely,
Mike Maskell
