4 YEAR STRATEGIC PLAN

In accordance with the Terms of Reference, a multi-year Strategic Plan was developed by Tracey Proctor in partnership with the Human Rights Committee of Council (HRCC) in September of 2022.

The development of this plan included three phases.
Preliminary research was conducted with the three main stakeholder groups:

1) HRCC committee members
2) Mayor Bowman, Aly Raposo, Committee Coordinator and supporting Public Service members, and
3) Members of the Accessibility & Inclusion and Equity & Diversity sub-committees

From the preliminary research, four priorities were identified within the feedback process and these will frame the basis of the work of the HRCC for the next four years (2023 – 2026). They will be worked on simultaneously and include:

- the creation of an annual workplan;
- increasing community engagement and development of partnerships;
- committee development (HRCC and sub-committees); and
- the establishment of Winnipeg as a Human Rights City.

Further, the document provides clear, organized objectives and action items to take in order for the committee to meet all of the goals efficiently and in a timely manner.

The Self-Declaration Questionnaire (SDQ) is a critical ongoing project. They currently have a 38.9% response rate and are aiming for 65% or better. The SDQ Campaign has included extensive communication plans and those will continue into 2023.

The Diversity Dashboard continues to be refined in order to provide departments with diversity representation data to inform their EDI efforts. There are 56 city employees who have been granted access to the Diversity Dashboard.

The creation of the EDI Calendar of events has helped the city to leverage its employer partnerships with the Canadian Centre for Diversity & Inclusion and Pride at Work to promote various webinars and workshops. The HRCC & EO Awareness & Action Series, as well as other free offerings with community partners have also been added to the EDI Calendar.

PANEL PRESENTATION ON THE ELIMINATION OF GENDER BASED VIOLENCE.

The City of Winnipeg Equity Office in partnership with the Human Rights Committee of Council and the Canadian Museum for Human Rights hosted a panel discussion to commemorate the International Day for the Elimination of Violence Against Women (Nov. 25), 16 Days of Activism Against Gender Violence (Nov. 25 – Dec. 10), and the National Day of Remembrance and Action on Violence Against Women (Dec. 6).

Pandemic impacts include increased gender-based violence rates and intersectionality with other equity groups including Indigenous women, racialized women, women with disabilities, and newcomer women.

Gender-based violence (GBV) is perpetrated against someone based on their gender expression, gender identity or perceived gender. Violence against diverse women and girls is one form of GBV, including Indigenous and racialized women and girls, women and girls with disabilities, and women who are seniors. GBV also has a disproportionate impact on 2SLGBTQQIA+ (Two-Spirit, Lesbian, Gay, Bisexual, Transgender, Queer, Questioning, Intersex, Asexual, Plus) and gender-non-conforming people. This discussion will include calls to action and cover ways to make meaningful contributions to help eliminate gender-based violence.
