REPORT

REASON FOR THE REPORT:

New Capital Projects must be approved by Council.

HISTORY:

Funds in the amount of $1,863,000.00 are included in the 1991, 1993 and 2000 Capital Budget for the NEWPCC Secondary Clarifier Re-Roofing, Account Distribution No. 444 181000 200752 2031000300.

DISCUSSION:

The re-roofing of the NEWPCC Grit Building was included in the five year Capital Budget because the existing roof has exceeded its functional life and is in need of frequent repair and servicing. The original intent was to re-roof the Grit Building in 2007 but because of the rapid deterioration of the existing roof and the potential damage that can occur to the mechanical equipment control components within the facility it is recommended that the Re-Roofing of the Grit Building be approved as a new project and that funds from the Secondary Clarifier Re-Roofing project be transferred to the new project. It is expedient that the work be done in 2004 to protect the mechanical control components within the facility and prevent structural damage to the facility as a result of water leakage undergoing freeze-thaw cycles.

The 2004 funds recommended for transfer will be used to address the immediate re-roofing requirements with future budget funds used to address other re-roofing requirements in a timely and proactive manner.

The total estimated cost of the 2004 portion of the project including the contract works and an allowance of 12% for Engineering, 3% for Goods and Services Tax, 2% for Interim Financing and 1% for Administration will be $473,800.00 which is within the budget funds recommended for transfer.

The Secondary Clarifier Re-Roofing Project is complete and the remaining funds are no longer required.

The financial status of the Secondary Clarifier Re-Roofing Project is as follows:

Approved Capital		$1,863,200.00
Previous Awards and Expenditures	$1,385,304.00	
Amount recommended for transfer	$ 477,896.00	
Total	$1,863,200.00	$1,863,200.00
Amount Remaining		$ 0.00

The surplus cash flow forecasted funds being recommended for utilization in this report were included in the Cash Flow Projections in the Capital Projects Summary for the period ending March 31, 2004.

FINANCIAL IMPACT:

The following financial impact statement for this project has been prepared in accordance with the recommendation adopted by Council on December 13, 2000.
