Reallocating And Applying City Resources To Increase Access To Local Economic Development

"The Status Quo Is Synonymous With Going Backwards." - Unknown
"Leadership Is The Ability To Support And Inspire Others For A Common Purpose." - Kevin Millsip

Winnipeg, Manitoba, Treaty 1 (Also known as the Stone Fort Treaty), and Homeland of the Red River Metis. "One With The Strength of Many."

For Immediate Release - Candidate for Mayor Chris Clacio believes that structural changes must be Implemented in relations to civic governance and administration. City hall has to evolve with the times to meet its own obligations to the citizens of Winnipeg. Creating a psychologically safe city means upholding the quality of life of all citizens as the top priority.

The Next Mayor of Winnipeg must fully understand and acknowledge the historical context of urbanization, what this specific office of the mayor upholds, and respecting the treaty relationship. Winnipeg can be the world class leader in civic governance but the office of the mayor must get out of the way of city council. Economic Development Winnipeg recently exchanged the old slogan *"Winnipeg: Heart of the Continent"* into *"Made From What's Real"* but for the next mayor to be *"Winnipeg Will Always Be The Heart Of The World."*

With Chris as Mayor –

1. Expanding (Rebrand) the Office of Policy and Strategic Analysis into the Office of InterCivics and Coordination which would be a shared staff for all elected officials. 8. Completion of Winnipeg Transit Master Plan Within 2030.

"It's time to move away from the Anti-Poverty and Anti-Racist lens towards a movement of Transit-Oriented Development. The role and responsibilities of any citizen is to find out how your role fits into the movement. City planning and being a citizen is not about building a team. It is about building a movement." - Chris Clacio

"All projects funded under ICIP-PTIS must be completed by 2027, so work on these projects would need to begin immediately after funding is approved." - WTMP document

- **Priorities:**
  - **Part 1: Short Term Vision**
    - Priority 1: Completion of a Metro Bus Primary Network System - $20.400M
    - Ex. updating bus 16 to be designed for connecting all indigenous based organizations and spaces into one route.
    - Priority 2: Wheelchair Securements Retrofit - $13.750M
    - Priority 3: Bus Radio and Intelligent Transportation Systems (ITS) Replacement - $17.279M
    - Priority 4: North Garage Replacement - $200.066M
    - Priority 5: Transition to Zero-Emission Bus Program - $280.391M
    - Priority 6: Rapid Transit (Downtown Corridors) Preliminary Design - $7M
  - **Part 2: The Provincial Constitution**
    - Hold talks with the Province to discuss and include a "Regional Light Rail Transit Agency" to be included into the "Capital Planning Region Regulations."
    - With a creation of a regional transportation development agency the incentive to study rail relocation within the city of Winnipeg would open up new ways for mode shift, traveling options, increase trading, and supporting the tourism and hospitality sector within the province for a new economic boom.
    - Provide 1.5-million to complete a feasibility study with a cost-benefit analysis on moving the CPR rail yards and other heavy rail traffic out of the city.
  - **Part 3: Canadian Light Rail Passenger Transit System**
    - Medium term vision this would support the investment in the creation of a Special Operating Agency of Transit-Oriented Development Agency in city hall and the possible creation of a regional police service.
    - Longer term vision that would be to reconnect and regain Winnipeg's past glory to be known as the "Gateway to the West" by partnering with the Canadian government, Manitoba government, and Capital Planning Region to expand and invest in a national passenger rail service.
    - Far into the future the creation of a space port in Manitoba for space tourism sector.

9. Expanding (Rebrand) Emergency Preparedness within City Hall as Crisis Management.

"I believe the police need to pivot with the times. I believe that the city of Winnipeg can find a better ways to effectively manage city resources and safety of citizens efficiently." - Chris Clacio

- **Priorities:**
  - **Part 1: Priority-based funding formula for public safety**
    - Budget priorities: contractionary fiscal policy approach to reducing the budget for crisis management within city hall.
    - Capping the total police budget to 20% or equivalently to 18.3% that the fire and paramedics budget.
    - Capping all senior administrators salaries to $230,000 for financial year of 2023.
  - **Part 2: Position on citizen safety in the city**
    - Ending the cadet program by converting all the cadets to be full fledged constables to replace retiring service members.
    - Addressing red light cameras, body cameras, drones, and militarization of services into conversations about data, cybersecurity and online safety.
    - Educating citizens about their rights and responsibilities when in the presence of a bylaw and law enforcement.
    - More investment in the community relations division and proactive policing.
    - Continue the calls for the Province of Manitoba to hold a inquiry to the Law Enforcement Headquarters and Fire Halls.
  - **Part 3: Holding all city departments, services, and unions accountable**
    - The law enforcement members are not the enemy they are citizens like any other city department staff. Hold talks with all key stakeholders to discuss including and developing a living wage policy and reinvestment of pension funds away from fossil fuel companies.

Currently the total city budget equals 1.2 billion dollars with almost 26.5% of the police budget allocated to the service. Within the 26.5%, 85% of that goes to the salaries of the police unions and 15% goes to the police department for capital expenses. - Police Funding Model Event Presentation PDF

"If you add the tax supported budget with the public works department to the city budget 52.1% goes directly to highly inefficient labour costs." - Chris Clacio

10. Expanding (Rebrand) the director of water and waste into ecosystems services and supporting the office of sustainable to address environmental pollution, climate change mitigation, and green infrastructure technology.

"A society grows great when old men plant trees whose shade they know they shall never sit in." - Greek Proverb

- **Priorities:**
  - **Part 1: Urban Forestry/Tree Canopy For Green Spaces, Parks and Boulevards**
    - Plant: For every 1 public tree lost, the city should replant at least 4 new trees.
    - Maintain: Fund a 7-year pruning cycle (industry standard) for both street and park trees.
    - Protect: Incorporate and require a tree protection zone for all new, upcoming, and current construction projects to prevent lost, and damaged trees.
  - **Part 2: Completed Protected Bike and Active Transportation Network System within 8 years 2030**
    - Maintaining current property tax increase of 2.33% for 2023 and direct 0.33% to completing the bike and active transportation network.
    - Completing and connecting every active transportation network of protected bike lanes within the city and lowering speeds too 40Km in school catchment areas.
  - **Part 3: Creation of a Geothermal and EV-ready staff to provide expert policy advice within public works**
    - Include a "EV-Ready" bylaw within the development process and retrofitting of older residential and mixed-used buildings.
    - Hire experts who are geothermal and ev-ready staff for public works to provide policy direction and advice.
    - Collaborate with the Winnipeg Metro Region and the Province of Manitoba to advocate that "Efficient Manitoba" be the provincial crown corporation that develops geothermal technology in Manitoba.
    - Collaborate with the regional and provincial government to keep Manitoba Hydro electrical network grid to essentially support municipalities within Canada.
  - **Part 4: Expanding (Rebrand) Water and Waste into Ecosystems Services**
    - Funding a mix-used composting program for both residential and commercial.
    - Research market solutions for rooftop gardens, bee farming, urban agriculture permaculture, vertical farming, and hydroponic technology to increase access to healthy and sustainable local foods.
    - Research in finding a new water supply for the future growth in population.
    - Expedite the city's upgrades to the water management system by separating the combined sewer overflow system, and investing in green infrastructure.
    - Vow to increase green spaces from 6% to 10% by stopping new greenfield projects.
