Committee - council: Opposed to the recommendations
Committee - other: N/A
Agenda item (number and title): SPAP

Service inquiry: Submit Comments in writing
Participation preference: N/A
Comments in writing: Re: SPAP
I want to register my opposition to priority actions #17 and #18. We cannot afford to spend billions when our city is facing so many other problems, and I definitely do not believe the answer to these problems lies in building more roads and therefore increasing traffic and road maintenance while decreasing greenspace.
Have we learned nothing from our misguided past as a city which has spread out far beyond what it could sustain and is now trying to make amends with infill to solve past mistakes?
