EXECUTIVE SUMMARY

The 2023 Adopted Capital Budget includes a forecast amount of $200,000 in 2024 for New Columbaria Investment. Stronger than anticipated demand for above ground urn storage (i.e. columbaria niche space) at St. Vital and Brookside Cemeteries has resulted in a limited inventory of product available for sale to the general public. Council approval of a first charge against the 2024 Capital Budget in 2023 will enable the Public Service, Cemeteries Branch, to ensure that new supply of columbaria can be provided in a timely manner in order to meet community demand and continue to progress toward the goal of financial self-sufficiency.

Subject to approval of a first charge against the 2024 Capital Budget for this project, the Cemeteries Branch will proceed with the standard procurement process as per the Materials Management Policy and Administrative Standard FM-002.

RECOMMENDATIONS

1. That expenditures of up to $200,000 be authorized in 2023, or prior to the adoption of the 2024 Capital Budget, as a first charge against the Planning, Property and Development – General Capital Fund, to ensure timely delivery of projects associated with the 2024 New Columbaria Investment Program.

2. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

Council approval is required for a first charge for expenditures of Capital funds prior to the adoption of the 2024 Capital Budget and to amend Capital Budgets in accordance with Subsection 288(2) of The City of Winnipeg Charter.

IMPLICATIONS OF THE RECOMMENDATIONS

Approval of a first charge against the 2024 Capital Budget in 2023 will reduce the lead time for columbaria product delivery, ensuring supply is available before the existing columbaria niches are sold out.

HISTORY/DISCUSSION

The existing inventory of columbaria space available for purchase at St. Vital and Brookside Cemeteries is expected to be fully exhausted by Q3 2024 and Q1 2025 respectively. Adding new columbaria supply requires a lead time of approximately 12-15 months, which involves site planning and development, as well as the procurement of new columbaria units. A first charge against the 2024 Capital Budget for this project will ensure that the Cemeteries Branch can meet community demand and continue to progress toward the goal of financial self-sufficiency.

Contracts for site planning and development, as well as the procurement of new columbaria, cannot be awarded without an approved funding source in place. Subject to approval of a first charge against the 2024 Capital Budget for this project, the Cemeteries Branch will proceed with the standard procurement process as per the Materials Management Policy and Administrative Standard FM-002.

Additional Comments: Capital expenditures consist of up to $193,705 for columbaria acquistion and associated costs + short-term financing charges and corporate admin fees of $6,295. That latter amount is offset by an equal recovery in the current budget of the Corporate Finance Department. Existing Budgeted (capital) costs represents the budgeted amount included in the 2024 forecast for new columbaria investment.
