Community Need Support for the Project

The AMCC is a non-profit organization serving the Winnipeg and area curling community. The Club exceeds 1200 curlers, participating in various leagues and activities and includes all ages and skill levels. We offer Junior and Youth development programs and local schools utilize the facility as part of their physical Education Programs. The Club has been the host to many National, Provincial, and City events and bonspiels.

The Assiniboine Memorial began as a 2-sheet curling club in 1929 located just off of Portage Ave. In 1962, the Club relocated to a 4-sheet facility at its current location at 940 Vimy R. Fire in 1972 forced the Club to recommit to continued operation through construction and expansion to its current 8-sheets. In recent years, we have encountered significant concerns related to the structure and integrity of this aging facility. Competing demands for use of revenue funds cause us to seek community grants and funding.

November 19 -28, 2023, we are hosting the National Curling Club Championships, with representative male and female teams from all provinces attending. This weeklong event will bring significant revenues to the city through accommodation, transportation, support of local businesses, etc...

Given the range of service and activities provided, the rising cost of operating this curling facility continues to impact the Club's fiscal bottom line. The club continues to face the challenge of ongoing repair and maintenance needs while addressing compounding and emergent issues and support for needed projects such as those identified below.

Our project requests will enhance the curling rock performance, not only for the upcoming National Club Championship, but for the benefit of this curling community for years to come. The existing carpet in the ice shed is in dire need of replacement due to age and deterioration. Replacement will enhance both performance and appearance of the facility.
