Delegation information
Committee: Standing Policy Committee on Water, Waste and Environment
Committee - council: N/A
Committee - other: N/A
Agenda item (number and title): Item #1

Service inquiry: Submit Comments in writing
Participation preference: N/A
Comments in writing: I am in full agreement of support a curb side composting program and the building a of a facility that will support the processing of this waste. Winnipeg is behind in this area compared to other municipalities and must now pay the price of lagging behind. According the book Drawdown, Food Waste is number 3 on the list of contributions to climate change and emissions. We should be looking at ways Winnipeg can reduce its wood waste but also how to recover food waste through Composting and converting the waste into something useful.
