EXECUTIVE SUMMARY

Due to the legislation in place at the time of subdivision, numerous City parks are vested in the name of the Province of Manitoba rather than the City of Winnipeg. The Province of Manitoba has a procedure in place to facilitate nominal transfers of properties which should be rightly held by the local municipality.

On January 26, 2023, Council approved the transfer of 30 of these parks' properties. One additional park property was identified in mid-2023.

This transfer will have no impact to Parks programming or maintenance and is simply a housekeeping matter. The cost to complete the transfer is estimated to be up to $15,000 which will be funded through a Public Works Department operating budget account (001-583010-181516-999).

Roll#	Address	Park (Legal)
09000912000	50 Kern Drive	Kern Park (Blk 61 & 62, Plan 1504)

This acquisition transaction is an atypical transaction. The Province has a policy/framework in place to dispose of park property that should rightfully be owned by the municipality but due to legislative requirements at the time of creation, are vested in the name of the Province. This transaction does not include a contract and the City's risk is virtually unchanged since the City has had care, custody and control of the property for decades. Legal Services advised Planning, Property and Development their (Legal Services) review of the transaction was not required since it is a housekeeping matter. For these reasons the transaction does not meet the intent of the criteria for eligibility for review by Independent Fairness Commissioner (IFC) and as such will not be subject to IFC review.

RECOMMENDATIONS

1. That the report be received as information.

REASON FOR THE REPORT

The Acquisition of Property policy, adopted by Council on September 29, 2021, requires that the acquisition of non-City property must form part of a Council-approved land acquisition program. This type of transaction (acquisition) would typically require review by the IFC.

IMPLICATIONS OF THE RECOMMENDATIONS

The transaction will not be subject to review by the Independent Fairness Commissioner.

HISTORY/DISCUSSION

On May 29, 2020 Council approved the IFC mandate be revised to focus on a limited number of transaction types which would include: sales, acquisitions, land exchanges and leases.

Sale Transactions:
- Sale of City-owned property with a transaction price of $500,000+
- Sale at a transaction price less than 95% of the appraised value
- Sale of property not through a public offering (with the exception of the sale of small lots, pedestrian walkways, closed lanes and similar parcels of land to an adjacent property owner)
- Sale at a transaction price of $1.00 or at a non-market rate
- Sale to a non-profit organization at less than market value
- Sale of any City-owned property designated/zoned or under the jurisdiction as park land that require approval by a 2/3 vote of Council

Acquisition Transactions:
- Acquisition of property with a transaction price of $100,000+ for property identified under a Council approved project
- Acquisition of property that is not part of a Council approved program or project, or where the project has not yet been adopted by Council
- Acquisition by way of property donation to the City

Land Exchange Transactions
- All Land exchanges

Lease Transactions:
- Lease where the City is the Lessee and the term is more than 10 years with a gross value of $1,000,000+
- Lease where the City is the Lessor and the gross value of the lease is $500,000+
- Lease where the City is the Lessor where the lease is not based on current market value or is based on a term of 5+ years

Transfer of Park Land from the Province of Manitoba to the City of Winnipeg

During an inventory review of all City land in 2021, it was discovered that numerous City parks were legally owned by the Province of Manitoba. Internal databases identified the City as the beneficial owner of the property but His Majesty the King (Manitoba) is the legal registered owner on Title.

On January 26, 2023 Council approved the transfer of 30 park properties. As the City has thousands of Titles to property, discovering inconsistencies in ownership can be an exhaustive exercise which takes the coordination of multiple City departments/branches. As these properties are identified, the Public Service will bring them forward for consideration as required.

In mid-2023, the Public Service discovered one additional park (Kern Park) in the name of the Province rather than the City. The transfer of property will have no impact to Parks programming or maintenance and is simply a housekeeping matter.
