EXECUTIVE SUMMARY

A request was received from Sage Creek Development Corporation to amend Development Agreement AG/18 by deleting the requirement for a sidewalk at the location shown on the sidewalk map in Appendix" A" (attached).

The Public Service has recommended that the request be denied.

RECOMMENDATIONS

1. The request to delete sidewalk as shown in Appendix "A" be denied.

2. That the proper officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

Council approval is required to amend a Development Agreement.

IMPLICATIONS OF THE RECOMMENDATIONS

If the recommendations are agreed to, there will be no change to Development Agreement AG 18/21

HISTORY/DISCUSSION

On September 29, 2021, Council approved the subdivision and rezoning of land located south of Warde Avenue and East of Lagimodiere Boulevard, which allowed for the development and servicing of Phase 10 of the Sage Creek Development.

Pursuant to the above-referenced approval, the Developer, Sage Creek Development Corporation, entered into Development Agreement AG 18/21 with the City of Winnipeg. The agreement included a condition to install sidewalks and pathways throughout the development area.

On March 6, 2023 a letter was received from Bryan Ward on behalf of Sage Creek Development, attached as Appendix B, to amend the agreement by removing the obligation to install a section of sidewalk as indicated on the sidewalk map attached as Appendix A.

In keeping with the planning and architectural design of the community by allowing a variety of housing designs and elevations, the applicant contends that a sidewalk is not required at this location. Furthermore, the applicant contends that the remaining sidewalk network in the subdivision serves the pedestrian circulation very well.

Public Works disagree with the deletion of the sidewalk and offer the following comments

> *We have no reason to support the removal of this sidewalk. This block has a rear lane where vehicular access should be taken, leaving lots of boulevard space for a sidewalk. This sidewalk was identified to provide connectivity to and near the school, connectivity to the park path network and the overall sidewalk network including the adjacent collector. These sidewalk connections, coupled with the extra boulevard space creates a great opportunity for a sidewalk to be located here.*

Therefore, the administration recommends that the request to delete the sidewalk be denied.
