Comments in writing: My First Nation traditions and sacred gatherings include meat and fish. The idea of a future without meat and fish is horrifying. Imagine your own family's breakfast without milk and eggs.... restaurant meals without meat, eggs, butter and cheese. Not what any one of us wants.

Most of us do not kill our own food. We depend on grocery stores. If the UN builds on this treaty, and wins its WAR ON MEAT, we fear that this craziness threatens our future and our way of life.

Please do the right thing. Please do not even waste the time of your staff in calling for a new "study". They have so much actual city work to do already.

This is unacceptable.
