Committee - other: N/A

Agenda item (number and title): SHORT TERM

Service inquiry: Submit Comments in writing

Participation preference: N/A

Comments in writing: Play in the yard

The kids played in the yard 3 years ago and they still remember that time that they learned about gardening from me. Their parents were waiting for their home to be ready and it was a stressful time for them.

The options were limited to either hotel or apartment with air mattress beds and no furniture plus they had a CAT.

Covid struck and 1 month turned into 5 months. The 30 cap would leave our Winnipeg citizens and their pets absolutely homeless.

Under the River

They were here to go under the Red River from Kildonan Park to the East Side. Yes, UNDER WATER drilling for our own city services to be upgraded. They worked long hours, they parked their large trucks in the yard, they ate breakfast at the island, they made big healthy lunches for their long days then they spent their hard earned money at Browns Social House. The 30 cap would have been so difficult for this company and their EXPERT engineers who needed a kitchen to prepare breakfast and lunches while they worked hard to upgrade our infrastructure.

She and her teenagers were in limbo and the big family dog needed a fenced yard. As the divorce settled and the mom and teens waited for a 3 bedroom house with a fenced yard near the kid's high school. The

HOCKEY bags were hustled in and out and the laundry facilities were a must. The 30 cap would have added stress beyond stress for this busy hockey family and their 7 year old dog.

She came from Florida with her 2 cats. She wanted to be in Winnipeg to spend quality time with her ill parents and have a space to bring her grand daughter to for bonding sleepovers. The 30 cap wouldn't recognize that ILLNESS does not just take 30 days.
