Delegation information

Committee: Standing Policy Committee on Water, Waste and Environment
Committee - council: N/A
Committee - other: N/A
Agenda item (number and title): Smart water meters

Service inquiry: Submit Comments in writing

Participation preference: N/A

Comments in writing: I am oppose to smart water meters being used in all homes. I have many concerns when it comes to adding AI technology to anything around my home and children. It should be an option if residents would like to make the switch or not. Radiation that would admit from it, would be a serious health concern. Iam also concerned on the type of government control that would be put over these meters. This is very alarming to say the least. I do not want any smart meters being installed anywhere near my home. AI technology needs to STOP!
