Committee: Standing Policy Committee on Water, Waste and Environment

Committee - council: N/A

Committee - other: N/A

Agenda item (number and title): Report of the standing policy committee on water waste and environment dated October 30, 2023 advanced water metering solution business case

Service inquiry: Submit Comments in writing

Participation preference: N/A

Comments in writing:

- I am opposed to the passing of this motion

- Defer the vote until there is a full public consultation on this \$ 135 million project which would include the opportunity to examine and comment on the Diameter Services report mentioned in the public service report.

- the potential for adverse health effects has not been studied by Health Canada although there have been many reports of harm from exposures to emissions from wireless smart meters

- would like to see documentation that the City has adequate liability/insurance coverage in case of injury from emissions from the smart water meters. Will the City provide a legal opinion?

- the Smart Water Renewal project should be included on the City of Winnipeg Public Engagement website

- there must be an opt-out

- the opt-out must be at no-cost with no requirement, such as a medical letter.
