Comments in writing: You folks passed a budget, in which you said that you would spend this money on buying parkland. None of these 3 items involve buying parkland. One day soon, we may be buying new parkland, and should not squander the money, until that day comes. Items 7&8 at least involve the way that the public enjoys public lands. Item 9 does not. There is no explanation why it has taken half a year for this matter to come to Council, and why the work was done before permission was granted to fund it.

Replacing old carpet is the sort of spending that a small company or a family would postpone, if they were out of money. The city is essentially out of money. Small companies and families, which most of your taxpayers are, would not want to pay to replace someone else's carpet, especially when they are out of money. Please do not approve this improper diversion of funds.
