Comments in writing: It seems very wrong that the city would ask for MB to prepare a report, when the city has been obliged to make a report on every place PE has been used, every year, starting 20 years ago. Does anyone here find irony in this item?
Has anyone here ever asked WPS and the Services Committee for such a report? There is now more than 20 years of data to use.
Has any Councilor ever asked for an explanation of why the system has been violating the law for 20 years?
Media coverage says clearly the the greatest danger to the public does not involve the places where PE is used. Perhaps that fact is why no one wants the reports called for in your enabling legislation. Reporting the facts might prove that the whole PE speeding ticket system has not prevented a single serious crash.
