Delegation information
Committee: Executive Policy Committee
Committee - council: N/A
Committee - other: N/A
Agenda item (number and title): Preliminary budget

Service inquiry: Submit Comments in writing
Participation preference: N/A
Comments in writing: I am a resident in Charleswood, south off Wilkes to be more precise. This is an area, rural in nature, that has never had City of Winnipeg services provided. Water must be trucked in, septic tanks must be pumped out. This has been ever increasing in cost and I note, yet again, that the City Preliminary Budget contains a reference to repealing Bylaw # 7075-97 which affords those residences so affected a yearly grant of $250.00 to help offset this lack of service.
I wish to go on the record by stating that I wish to have this item struck from the budget, to maintain the $250.00 grant and to continue to allow residents a small amount to put towards the offsetting of associated costs.
Thank you for your consideration.
Mike Maskell
Winnipeg
