Comments in writing: There may be a good case for changing the heating system at this church. I wrote reports on energy efficiency while an engineer at MANITOBA HYDRO. Manitoba created EFFICIENCY MANITOBA to assist organizations with projects just like this. City Hall should stay in its lane, and not usurp EM in this matter. EM will work with the UC on any valid green project. There is no need for the city to spend more time on this or on any other heating system improvement. Please go no further on this.
